Be a private entity (including non-profit organizations) or public agency intending to install EV chargers. Public agencies must be located within the boundaries of the SJVAPCD, which includes the following counties: San Joaquin, Stanislaus, Merced, Madera, Fresno, Kings, Tualre, and the valley air basin portion of Kern. Private entities located outside the SJVAPCD may apply for funding as long as the EV chargers will be installed at a site located within the SJVAPCD's boundaries.

Washington Elementary

(Multi-pollutant Trailer)

Still no cooperation from SUSD? The school is extremely important for monitors.

18:28:10 From CSC-Gloria Alonso she/her to Everyone:

Are there more explicit notes to tract this progress. It is difficult to follow the spatial talking and progress with deployment.

18:28:46 From CSC-Jonathan Pruitt- Catholic Charities to Everyone:

It would be nice Ned. But SUSD hasn't expressed interest

18:28:47 From CSC-Gloria Alonso she/her to Everyone:

It is a great explanation but it might not be easy to follow for everyone

18:31:34 From R - Margo Praus to Everyone:

I appreciate that Brad has continued to move forward and find potential sites. Our whole purpose is somewhat dependent on air monitoring data—knowing that we're making a difference. Do we need a vote to have Brad move forward?

18:32:29 From CSC-Gloria Alonso she/her to Everyone:

I appreciate it!

18:33:05 From CSC-Jonathan Pruitt- Catholic Charities to Everyone:

There are not any crematories in that area

18:35:54 From CSC Espe Vielma to Everyone:

Boggs tract community center isn't an option since SUSD opted out ?

Absolutely! I'm ready!
