APPENDIX E

FACILITY RISK REDUCTION AUDITS UNDER AB 2588 (AIR TOXICS HOT SPOTS INFORMATION AND ASSESSMENT ACT)

Community-Based AB 2588 Reassessments

The table below identifies the AB 2588 reassessment status of each facility within the community, as of September 9, 2019. The AB 2588 reassessment status for each facility is presented in the table below utilizing one of the following status definitions:

- *Agricultural*: a facility growing crops or raising fowl or animals. Facilities health risk assessment scheduled to begin in 2019/2020.
- *Exempt - De minimis*: Low health risk levels according to Appendix E of the Emissions Inventory Criteria and Guidelines Reporting (EICGR). These facilities are exempt from further analysis under AB 2588 at this time due to being a low health risk.
- *Exempt - Low Priority*: Plan and report completed, facility prioritization score is low, and are exempt from further analysis under AB 2588 at this time due to being a priority (low health risk).
- *High Priority*: District has notified the facility that a Health Risk Assessment (HRA) is required to be submitted.
- *Industrywide*: Small businesses where emissions can be generally characterized such as Gasoline Dispensing, Auto Body Coating, etc. To begin reassessments in 2019/2020.
- *Intermediate Priority*: Facility required to provide an operational and emissions status update summary on a quadrennial basis.
- *New Facility*: a facility that has recently been issued permits to operate by the District. To begin AB 2588 assessments in 2019/2020.
- *Notified - Plan in Progress*: District has notified the facility that a complete Toxic Emissions Inventory Plan (TEIP) is required to be submitted to the District.
- *Notified - Report in Progress*: Facility's TEIP is complete, District has notified the facility that a complete Toxic Emissions Inventory Report (TEIR) is required to be submitted to the District.
