

Stockton AB 617 CSC Meeting - Chat Transcript
Nov. 4, 2020 5-7 p.m.

00:29:06 V-CSC - Noehmi Jauregui - St. George School Principal: I am cohosting...thanks

00:30:50 Christal Lazard - CARB: Thanks for the positive reminders!

00:31:31 V-CSC - Jonathan Pruitt: No Politics please :) Thank you

00:32:53 V-CSC - Ed Ward: What does V mean?

00:33:06 Kim Danko - ILG: Hi, Ed. It means you are a VOTING member tonight

00:33:09 Kim Danko - ILG: on the strategies :)

00:34:21 Ryan Niblock - SJCOG :Jonathan, you don't want to talk about the South San Joaquin Irrigation District Division 3 board member vote? Fine.

00:35:35 V - CSC Catherine Garoupa White: I'm a bit surprised to hear we are voting when this meeting is the first opportunity to really discuss the measures and hear from people how they ranked them. I also want to reiterate the industry reps should not vote on measures they have a financial stake in - It is frustrating that conflicts of interest have not been addressed.

00:35:36 GOV - Ann Rogan: Didn't realize voting was happening tonight? Must've missed in the agenda?

00:35:39 V-R - Ned Leiba : Where in the agenda was there disclosure of any voting; matters for action? This does not seem correct.

00:36:04 GOV - Robyn DeGuzman - SJC Public Health: Yes, I missed seeing voting in the agenda as well.

00:36:31 CSC - Cynthia Pinto-Cabrera - Alt: I missed the voting in the agenda as well

00:36:36 V-R - Ned Leiba : There is nothing in the agenda about voting on anything?

00:36:41 V-R - Bianca Mendoza: Nowhere in the agenda was it mentioned we would be voting. I don't feel that we are ready to vote on anything yet.

00:37:14 V-CSC - Dillon Delvo: We are barely receiving this information. It's going to be difficult to vote immediately.

00:37:51 V-R - Bianca Mendoza: Thank you Noehmi! I 100% agree with you!

00:38:01 V-R - Vanessa Palomares: yes I'm surprised too

00:38:27 V-R - Deby Provost: I don't understand about the participant number.

00:38:41 V-CSC - Jonathan Pruitt: We should focus on the questions the group shared for each CERP first. No need for voting

00:40:32 V-R - Stacey Panyasee: I was caught off guard about voting today. I appreciate the flexibility.

00:43:35 V-R - Ned Leiba : We should not have votes without matters explicitly on the agenda, and we should think about how to vote, e.g. rank preference voting. For me, I have not received,

despite multiple requests, information on the cost benefit per ton. So how can we vote without much more information? Also, our first meeting was March, so with a one year deadline, it seems we should not be in a rush to take definitive action now.

00:43:56 V-CSC - Catherine Garoupa White: I also appreciate the flexibility. While I understand AB 617 has tight timelines, we are in an exceptional year and CARB has indicated an extension is feasible if necessary. Thank you for attention to a community centered process to ensure the best outcomes.

00:44:40 Ryan Hayashi - AD: Thank you for your feedback Catherine

00:46:22 V-R - Deby Provost: I still don't know where to find my participant number, and what I am supposed to do with it??? Anyone??

00:48:11 V-R - Mary Elizabeth: I did not get in until 5:04.

00:48:12 V-CSC - Noehmi Jauregui - St. George School Principal: Yes, thanks Erica. I am on the agenda after Ryan. :)

00:49:44 Erica Manuel - ILG: @noehmi, please jump in after Ryan!

00:49:52 Hanna - ILG: Hi Deby! if you join zoom via your computer but use your phone to call-in for your audio, then you need to link these two accounts by using your participant number. In the right left corner of your screen, click in the green icon (it looks like a green shield with a check mark). In the pop up screen, you will see your participant number)

00:50:53 V-CSC - Jonathan Pruitt: It's also something to mention for the CERPs from Fresno and Shafter, the VAD did have the deadline for September 2019. The VAD Board of Directors voted on the CERP to give it over to the "Board of Directors" at CARB. For Fresno and Shafter, the CARB board didn't even vote on their CERPs till February. Or was it March? So realistically, we shouldn't need to rush.

00:53:35 GOV - Ann Rogan: So this 35-42M + 12M bucket of dollars are funded from GGRF (Greenhouse Gas Reduction Funds)?

00:54:15 V-CSC - Catherine Garoupa White: I've heard it suggested that if we do delay the planning process beyond December, the funding for incentives may no longer be available. Can that be clarified please?

00:55:54 V-CSC - Jonathan Pruitt: CARB/VAD: Can we please provide clarification for Ann Rogan?

00:56:24 Ryan Hayashi - AD: Correct Ann

00:56:56 GOV - Ann Rogan: Got it, thanks Ryan

00:58:35 V-CSC - Jonathan Pruitt: TRUUUUE on that basketball team

00:59:56 Todd DeYoung - AD: Catherine, the funding associated with AB617 does have legislative deadlines to be spent, so any significant delays in adoption can compromise our ability to spend the funding by those deadlines. But, there is not a specific deadline in December that would jeopardize the funding. Essentially, the longer we wait, the harder it will be to spend the funds and we will ultimately risk losing them.

01:01:00 GOV - Taylor Williams: Good, can you clarify the legislative deadlines as well please?

01:01:03 V-CSC - Jonathan Pruitt: Love these presentations. Thank you Noehmi

01:01:04 Kyle Goff - CARB: Catherine: from a State-level perspective I can confirm Todd's got it right!

01:01:33 V-R - Regina Reynolds Griffin: Thanks Noehmi

01:01:44 V-CSC - Kenda Templeton: Thank you for coming by!

01:02:04 V-CSC - Catherine Garoupa White: Thanks for clarifying. I'm not sure what you mean by "the longer we wait, the harder it will be to spend the funding." Can you be more specific?

01:02:09 V-R - Stacey Panyasee: Yes, thank you Noehmi! This is our community and we have a responsibility to make Stockton better for our children and the future!

01:02:25 V-R - Vanessa Palomares: that was awesome!

01:02:30 V-R - Bianca Mendoza: Thank you Noehmi, that was a great presentation!

01:03:17 V-R - Deby Provost - Reclamation 828: Thank you Noehmi! Great job!!

01:03:38 GOV - Albert Rivas: Great presentation Noehmi! Always great to learn how the important work we do with AB 617 can have a positive impact on local families and youth.

01:03:55 V-CSC - Catherine Garoupa White: Thank you Noehmi!! 🙌🙌🙌

01:04:05 Hanna - ILG: Loved all the pictures! Thank you for sharing!

01:05:50 V-CSC - Dillon Delvo: We listed questions on the CERP worksheets.

01:06:04 V-R - Ned Leiba : Why was vegetative barriers, ranked number 1, allocated only 2.7% of the budget. Why not much more.

01:06:15 V-CSC - Dillon Delvo: Do we need to ask them again?

01:06:54 V-CSC - Catherine Garoupa White: For number 1, several of us suggested vegetative barriers *with* physical barriers, as one example, because research shows that is most effective for the "danger zone" of people living near major sources like the freeway.

01:07:05 V-R - Bianca Mendoza: Im concerned that the physical barriers are not with vegetative barriers, when it was mentioned that the best results come from both being used together.

01:07:40 Anthony Presto - AD: Question on Facebook from Laura Rosenberger Haider: Do you have funds for a portable NOx monitor for me and a better VOC monitor to calibrate my Temtop monitor and a hexavalent chromium reader?

01:08:00 Kim Danko - ILG: The physical barriers are represented in the comments that you are about to see

01:08:54 Todd DeYoung - AD: Taylor: Funding for this program will primarily come from Community Air Protection (CAP) Year 3, which was authorized by AB 74, has a deadline to be 100% liquidated (paid out) by June 30, 2025.

01:09:32 GOV - Taylor Williams: That's helpful, thank you Todd

01:10:46 Todd DeYoung - AD: Catherine, I simply meant that the longer we wait, the shorter amount of time we will have to develop these programs, fully implement them and get the funding paid out prior to the deadlines. It just compresses our timelines.

01:13:06 V-CSC - Catherine Garoupa White: Got it; thanks.

01:14:16 GOV - Ann Rogan: Are these aggregated comments shared somewhere? And/or are they posted on the website?

01:14:51 V-R - Mary Elizabeth: my question too

01:15:47 Ryan Hayashi - AD: Hello Ann, the chat log and video of the meeting are available at <http://community.valleyair.org/selected-communities/stockton/steering-committee-meetings/>

01:16:56 Brian Moore - CARB: Just some general guidelines with barriers designed to disperse air pollution. The major consistencies in studies indicate that a barrier does a better job if it is:

1. Tall(er).
2. Dense(er).
3. And the barrier is perpendicular to the prevailing wind, between the major source of air pollution and the neighborhood/school/healthcare facility/etc.

Please email me if you have any questions about studies related to vegetative and solid barriers.

Brian.moore@arb.ca.gov

01:17:27 V-CSC - Noehmi Jauregui - St. George School Principal: Thank you Brian

01:17:33 V-CSC - Dillon Delvo: For me, I want to protect the families and children that are most at risk for poor health outcomes because of their adjacency to freeways and exposure to PM 2.5. We should prioritize the places that have homes and child care centers 1000 ft. away from freeways.

01:17:38 GOV - Ann Rogan: Brian, incredibly helpful - thank you. We actually have had some questions on air pollution dispersal that we'll follow up with you on

01:18:06 V-R - Regina Reynolds Griffin: can we for example up grade existing sound barriers with new vegetation.?

01:18:19 V-CSC - Noehmi Jauregui - St. George School Principal: Yes, Ed! Agree with you! We need to handle this money carefully and respectfully to provide the best outcome for residents. Thank you Ed.

01:18:24 V-CSC - Jonathan Pruitt: Great question Regina

01:19:00 V-CSC - Kenda Templeton: Thanks Jaime

01:21:24 V-CSC - Catherine Garoupa White: Thank you Brian, very helpful info.

01:21:41 V-R - Nate Knodt: Yes I am a big supporter of vegetative barriers, but not sound walls!

01:22:16 Brian Moore - CARB: Regarding planting vegetation behind an existing sound wall: Lots of things depend on the specific characteristics of the site, but in general, if you plant dense vegetation behind an existing sound wall, and it extends the height of the combined barrier, it should be better at dispersing emissions.

01:23:20 V-CSC - Catherine Garoupa White: Are the documents with everyone's comments available online so we can also look at them? It is difficult to see well on the Zoom.

01:25:45 V-R - Bianca Mendoza: Can we move on to the Port next because that was a high area of concern from the last meeting.

01:25:53 Heather Heinks - AD: Catherine, yes:
<http://community.valleyair.org/media/2112/discussion-document-incentive-cerp-measures.pdf>

01:26:11 V-R - Deby Provost - Reclamation 828: I have a friend who is a wholesale nursery owner. I'd be happy to talk to him.

01:26:22 V-CSC - Catherine Garoupa White: Thanks Heather! I was looking for it on the website and couldn't find it.

01:26:33 V-R - Mary Elizabeth: Thank you ed

01:29:39 V-R - Mary Elizabeth: To address another comment I want to mention that our Board is comprised of appointees from the Stockton City Council and the San Joaquin County Board of Supervisors. All of the training and requirements are established by those two governing bodies prior to the appointments.

01:29:48 GOV - Christina Fugazi: Thank you, Jeff, for your email and an update on what the Port is doing to address the community's concerns.

01:30:11 GOV - Robyn DeGuzman - SJC Public Health: Perhaps this can segue into measures related to the Port, since it was a huge area of concern at the last meeting

01:30:47 V-CSC - Jonathan Pruitt: Boggs Tract residents want speed bumps on Fresno Ave and Washington Street

01:30:54 V-CSC - Jonathan Pruitt: To stop speeding and trucks

01:31:33 V-R - Victoria Moreno: what's the port doing to lower the traffic on Fresno ave. and Washington st?

01:31:34 V-R - Bianca Mendoza: I agree with Robyn, I would like to go over the measures for the port

01:31:56 Erica Manuel - ILG: we'll cover the port measure next

01:32:04 Jose Saldana - CARB EJ Unit: not sure if this information is useful, but CSC members who also are non profits can apply for funding that could enhance some of these projects: one example is The EEM Program is an annual program established by legislation in 1989 and amended on September 26, 2013. It offers grants to local, state and federal governmental agencies and to nonprofit organizations for projects to mitigate the environmental impacts caused by new or modified public transportation facilities.

01:32:30 V-CSC - Noehmi Jauregui - St. George School Principal: Jose, I would love some more information about that. Where can I find it?

01:32:44 V-CSC - Jonathan Pruitt: Oh hi Jose

01:32:50 V-CSC - Jonathan Pruitt: Glad you're here

01:32:57 V-R - Stacey Panyasee: Thanks Jeff!

01:33:08 V-R - Regina Reynolds Griffin: Thanks Jeff

01:33:10 Jose Saldana - CARB EJ Unit: unfortunately, their urban greening grant solicitation is closed for the year, but hopefully another round may occur next year: <https://resources.ca.gov/grants>

01:33:12 V-CSC - Dillon Delvo: Thanks Jose.

01:33:37 Jose Saldana - CARB EJ Unit: Hi!

01:33:41 V-R - Bianca Mendoza: If we are trying to mitigate the already existing pollution in our community, why is the port trying to expand without fully understanding the effects on our health?

01:34:24 GOV - Robyn DeGuzman - SJC Public Health: Can we have some more elaboration on Port expansion?

01:34:30 V-CSC - Catherine Garoupa White: Does the port have an air quality management plan, emissions inventory, etc that can be shared?

01:35:38 GOV - Ann Rogan: What does near zero emission refer to here?

01:37:29 V-R - Bianca Mendoza: Yes Robyn, I also think a detailed explanation of what expansion of the port includes would be beneficial.

01:37:29 Todd DeYoung - AD: Ann: zero emission refers to zero tailpipe emissions in vehicles. electric, hydrogen, etc. Near zero refers to ultra low NOx natural gas technology, hybrid, etc. Significantly lower than existing diesel standards.

01:37:44 V-CSC - Catherine Garoupa White: ++ Robyn's question

01:39:09 GOV - Jeff Wingfield: We are actually looking to close traffic east of the Port on Washington to remove truck traffic even further through Boggs. I am also pushing to remove the Harbor Rd entrance and have traffic come in on Port rd 13 which is 1/4 mile west of Boggs Tract. That way the only traffic coming through would be going to the Penny Newman terminal which is not a part of the port of stockton.

01:40:51 V-R - Regina Reynolds Griffin: There are two trucking companies in Boggs Tract on Ventura, Speed Bumps can help here,

01:41:19 Anthony Presto - AD: Questions coming in From Facebook: #1 Matthew A. Holmes Are there any community owned and operated monitoring efforts planned?

01:41:28 V-R - Victoria Moreno: thank you Jeff! is the Port considering the community input?

01:41:42 V-CSC - Catherine Garoupa White: So if expansion is in the works: Does the PoS have, or have plans to create, a seaport air quality plan, clean air action plan, truck management plan, etc?

01:41:50 Anthony Presto - AD: #2Matthew A. Holmes Isn't Diesel replacement funding existing funding? Or are we funding existing programs with AB617 dollars?

01:42:53 V-CSC - Jonathan Pruitt: I'd like for Matthew Holmes questions answered please

01:43:06 V-R - Victoria Moreno: when would this re routing will be effective?

01:47:07 GOV - Jeff Wingfield: Catherine-we are currently performing an emission inventory that will be completed in Feb. Utilizing that my goal is to put together an Air Quality Action plan next year and hoping that the Community Outreach Group could assist in that development!

01:50:46 V-CSC - Jonathan Pruitt: There needs to be direct outreach for the neighboring communities (BOGGS TRACT) for anticipated expansion projects.

01:51:23 V-R - Victoria Moreno: agree w/ you Jonathan

01:52:20 V-R - Victoria Moreno: I will be happy to participate

01:54:13 GOV - Jeff Wingfield: Regina, I agree, I hate seeing trucks drive through the neighborhood! Speed bumps would help!

01:54:22 V-CSC - Catherine Garoupa White: As a major source of emissions it is incumbent on the PoS to reach out to the community and have an inclusive process, not wait to hear from them. It's

good to hear the port is gradually moving in that direction but I was surprised to recently learn that major agenda items are often only posted 72 hours in advance, and right now the public are not able to comment at port meetings. These process issues have to be addressed along with reducing emissions and protecting the community.

01:57:10 GOV - Ann Rogan: 8,000 or \$8M?

01:57:30 GOV - Ann Rogan: :)

01:58:38 GOV - Jeff Wingfield: Jonathan, my hope is that the community outreach group will be made up of Boggs Tract residents and we can be even more active in discussing projects in development and get feedback. That is my intention of the group.

02:00:45 GOV - Jeff Wingfield: Catherine, I know the situation is not ideal, but we are taking comments currently in writing and we are looking for other ways to make the virtual Board meetings more collaborative.

02:02:16 Jose Saldana - CARB EJ Unit: CARB is working on a RR regulation to support the expansion of cleaner locomotives. while the CSC doesn't have an interest in spending money on a locomotive, there still exists an opportunity for the CSC to advocate for cleaner locomotives, without spending on one. This could have a potential to bear fruit down the line... it could be as simple as letter in support or against the regulation, using the regulatory comment process.

02:03:21 V-R - Deby Provost - Reclamation 828: Thank you Jeff.

02:03:53 CSC - Albert Rivas GOV: thank you Jeff

02:03:59 GOV - Ann Rogan: Jose - as it's shareable, would be interested to understand what's in the works around RR regulation

02:05:08 Jose Saldana - CARB EJ Unit: here is a high level description, thanks for the interest. <https://carbej.blogspot.com/2020/10/in-use-locomotive-regulation-concepts.html>

02:07:55 Jose Saldana - CARB EJ Unit: please do. I'm happy to connect you with the staff working on it, and answer any questions I can: jsaldana@arb.ca.gov

02:08:52 Heather Heinks - AD: FB Chat Question from Matt Holmes: Is penny Newman grandfathered? or exempted like BNSF?

02:09:25 V-CSC - Catherine Garoupa White: Thanks Jose! I look forward to learning more about how we can address emissions from locomotives.

02:11:07 GOV - Jeff Wingfield: Victoria-the Port is definitely interested in hearing from the community especially Boggs Tract residents. Please volunteer to join our community outreach team. You can reach me at jwingfield@stocktonport.com.

02:11:21 V-CSC - Dillon Delvo: I'm not ready to vote on that yet.

02:11:41 V-R - Victoria Moreno: Excellent Jeff! thank you

02:11:50 V-CSC - Catherine Garoupa White: The plan was sent with the CERP measure worksheets that we were asked to review with very quick turnaround.

02:11:51 CSC - Cynthia Pinto-Cabrera - Alt: Didn't we have until the 5th to provide comments?

02:12:10 V-R - Ned Leiba : We have until tomorrow to comment; I need to understand better the detection capabilities I did not see PM 01.

02:12:42 GOV - Jeff Wingfield: If I haven't answered your question could you please repost as there's a lot of traffic and I'm not sure if I got to everyone.

02:13:49 V-CSC - Tina Lau: Great ask, Jonathan thanks

02:15:45 V-CSC - Noehmi Jauregui - St. George School Principal: Not sure we heard you too well Ned. Would you mind putting the gist in the chat?

02:15:48 V-CSC - Jonathan Pruitt: Oh I was on the impression VAD talked to Stockton Unified already on the potential air monitors at the schools. Really needs to be brought to their attention like yesterday

02:16:19 GOV - Ann Rogan: We have not reviewed the air monitoring plan network design in detail, so will withhold questions until we've reviewed further

02:16:58 Jaime Holt - AD: We have had initial conversations with Stockton Unified, but we aren't doing any contract negotiations until we get sign off from the CSC.

02:17:33 V-CSC - Jonathan Pruitt: Thanks for the clarification Jaime. Are they in support of it?

02:17:57 Jaime Holt - AD: Generally yes, but need more specifics.

02:18:24 V-CSC - Jonathan Pruitt: Silvia, is there a potential spot at George Washington Elementary that could work for a trailer?

02:18:52 Matt Holmes - P: Are all monitoring assets/data the possession of the SJ AD?

02:18:52 V-CSC - Silvia Cantu: Depends on the size

02:19:10 V-CSC - Jonathan Pruitt: How big is the size team?

02:19:56 V-CSC - Silvia Cantu: No, the size of the trailer

02:20:34 V-CSC - Jonathan Pruitt: Yes Silvia lol. I'm asking the team (VAD)

02:20:39 Jon Klassen - AD: Hi Matt, yes all of the air monitoring assets will be possessed and operated by the District

02:21:20 V-R - Ned Leiba : I would like another day to read thru the entire doc and offer comments and questions. I did not see detection for PM 01 the smallest particles that seem to be most important in health; also organic carbon, elemental carbon etc. We need to know the cost of each monitor. I just did not see it in the report. Also you should not be asking us for a green light when we have not seen all the comments and responses. That is poor policy. Wait for the comments, give us the responses, and then make an agenda item.

02:21:28 V-CSC - Jonathan Pruitt: I miss Jessica

02:21:33 Matt Holmes - P: So there are no Community monitoring efforts in your community monitoring Plan? How does that pass statute?

02:21:47 Matt Holmes - P: statute*

02:22:00 Jon Klassen - AD: Hi Silvia, the size of the trailer is no larger than 10 ft x 20 ft

02:22:48 Matt Holmes - P: very cool trailers. Geeking on those

02:23:05 V-CSC - Jonathan Pruitt: Thank you guys for that video!!

02:23:32 V-CSC - Noehmi Jauregui - St. George School Principal: Don't we have another meeting in two weeks?>

02:23:37 V-CSC - Catherine Garoupa White: Agree with Ned that I would like to see what everyone's comments were before voting.

02:23:40 V-CSC - Silvia Cantu: I should be fine. It also depends on the District

02:23:58 Jon Klassen - AD: Hi Ned, the Stockton community air monitoring plan document has some discussion about PM2.5 speciation work that will be done, which will include an assessment of organic carbon, EC, etc.

02:24:40 V-CSC - Jonathan Pruitt: Silvia, would it hurt if it was in the small parking lot? Or would it be better to place on the grass?

02:24:58 V-R - Deby Provost - Reclamation 828: I am fine with it, as long as things can be moved, and we will be informed where, and why it was moved.

02:25:41 V-R - Ned Leiba : Willie - the monitoring should be linked to health studies. I don't see much focus on real life health outcomes.

02:26:04 V-CSC - Jonathan Pruitt: I'd like to bring some community science to this community air monitoring plan

02:26:04 V-R - Regina Reynolds Griffin: great question Willie

02:26:11 GOV - Jeff Wingfield: I'm sorry I was trying to respond to questions. Are we looking for locations for the stations?

02:26:12 Matt Holmes - P: Upvote Ned.

02:26:22 V-CSC - Noehmi Jauregui - St. George School Principal: Yes Jonathan...community science

02:26:35 V-CSC - Jonathan Pruitt: Allow the community to learn, train them and you'll see residents share the work :)

02:27:45 Matt Holmes - P: We can do what Jonathan want for a fraction of the expenditures that we've seen here It's happening in other CA Communities.

02:28:11 V-CSC - Noehmi Jauregui - St. George School Principal: What is the less expensive way to do this that will give us the same type of results?

02:28:31 Matt Holmes - P: Community Owned Noehmi

02:28:38 V-CSC - Jonathan Pruitt: There needs to be community buy in in this community air monitoring plan. Not just have the decision on the locations. More on the ownership

02:28:53 V-CSC - Noehmi Jauregui - St. George School Principal: Is AB 617 community owned data?

02:29:05 Matt Holmes - P: Sure should be.

02:29:57 Brian Moore - CARB: All air monitoring data collected through AB 617 will be accessible on district websites, and CARB's website.

02:30:10 V-R - Deby Provost - Reclamation 828: It is being broadcast now, is that enough? I am not sure what type of community involvement.

02:30:45 Jon Klassen - AD: On the questions of data access, the data that is collected from the community air monitoring network in Stockton will be available for public access

02:33:07 V-CSC - Catherine Garoupa White: Training and engagement of the community in air monitoring would be great. There are so many learning opportunities.

02:33:11 Brian Moore - CARB: Here is CARB's preliminary Air Monitoring data download tool. <https://aqview.arb.ca.gov/data.html>

02:33:26 V-R - Stacey Panyasee: Absolutely, please make it explicit on the agenda for any voting.

02:34:22 V-CSC - Catherine Garoupa White: ++ Noehmi and Stacey on explicit notice on voting and documents with all of the comments in advance.

02:34:28 GOV - Ann Rogan: Trish - can you drop that quick descriptor into the chat?

02:34:37 V-CSC - Noehmi Jauregui - St. George School Principal: What is the cost difference in collecting the information through community-owned initiatives vs. through this current AB 617 process? Where could the cost savings be reallocated?

02:35:41 GOV - Trish Johnson: Central California Asthma Collaborative: Community Air Grant This project will serve the San Joaquin Valley (SJV) area (8 counties). The project includes the continued operation, data collection, and real-time display of calibrated data from low-cost particulate matter air monitors installed in communities across the SJV. This project will also expand the capacity of the SJV Community Air Monitoring Network and the associated outreach in SJV communities.

02:36:26 Matt Holmes - Study Area Resident: Has the CCAC CAG been referenced or integrated into this planning process? Sounds promising.

02:36:28 GOV - Ann Rogan: Terrific, thanks - and is there a point person in San Joaquin county for that?

02:37:54 V-CSC - Jonathan Pruitt: That have not been integrated

02:38:06 V-CSC - Jonathan Pruitt: they have not been integrated into the planning process

02:39:20 V-R - Ned Leiba : Central California Asthma Collaborative CCAC: Community Air Grant - As Ryan knows, many of us wanted this Asthma organization to make a presentation to our AB 617 group about health studies, monitoring etc. Perhaps CCAC can be involved but apparently not with direct Stockton AB 617 funds?

02:40:37 V-CSC - Jonathan Pruitt: Is it still subject to be edited even after voting?

02:40:57 V-CSC - Catherine Garoupa White: Would like to see everyone's comments on CERP measures and monitoring plan well in advance to make an informed decision.

02:41:04 GOV - Ann Rogan: Now that the CERP strategy feedback is presented in the aggregate, how are we going to prioritize any items that warrant further discussion if needed?

02:41:27 V-R - Ned Leiba : Who will be setting the agenda? Can you let us know so we can have some lines of communication before the next meeting with those who will be setting the agenda. Thanks.

02:42:46 Matt Holmes - Study Area Resident: Excited to learn more. Have another commission meeting. Gotta Bounce! Happy to discuss further with anyone matt.holmes52@gmail.com

02:43:23 V-CSC - Catherine Garoupa White: Not longer meetings. More meetings maybe but we are also heading into the holiday season, and it has been a very chaotic and stressful year overall for everyone with the pandemic, wildfires, etc. etc.

02:43:45 V-R - Deby Provost - Reclamation 828: I am for more meetings not longer too!

02:44:12 GOV - Robyn DeGuzman - SJC Public Health: Agree Catherine...with the holidays, wondering if continuing into early next year is an option

02:44:16 V-R - Regina Reynolds Griffin: more is better

02:44:43 V-CSC - Noehmi Jauregui - St. George School Principal: I am OK with moving into January to complete the CERP

02:47:29 V-CSC - Jonathan Pruitt: Saturday meeting? LOL

02:47:35 V-CSC - Jonathan Pruitt: kidding

02:47:53 V-CSC - Dillon Delvo: We should consider an extension. I don't know how realistic this is.

02:48:03 V-CSC - Catherine Garoupa White: 4-5 meetings over 6 weeks is not realistic for me.

02:48:19 V-CSC - Catherine Garoupa White: Thumbs down is not a Zoom reaction unfortunately.

02:49:19 V-R - Ned Leiba : Cannot attend Nov 18 - best to have poll for dates.

02:49:29 V-CSC - Jonathan Pruitt: They need to add thumbs down as a zoom reaction

02:49:44 Kim Danko - ILG: they do! look at my thumbs down next to my name in participant list

02:49:46 V-R - Regina Reynolds Griffin: thumbs up

02:50:34 V-CSC - Catherine Garoupa White: Haha, found it! 🐻 Thanks Kim.

02:50:46 Kim Danko - ILG: :)

02:51:30 V-CSC - Catherine Garoupa White: We haven't even gotten to talk about the enforcement piece either, besides air monitoring and incentives.

02:51:55 Gloria she/her: Hello everyone! Sorry I am joining late I was at work. I am concerned, I heard we were voting today and I did not get any updates regarding that://

02:52:29 V-CSC - Noehmi Jauregui - St. George School Principal: I would like to ask that all of those documents be physically mailed and emailed to all committee members. With that much information, it would be helpful to not have to split our screen and participate in the Zoom meeting at the same time.

02:52:42 Jaime Holt - AD: Gloria, no voting happened today and we will be much clearer about communicating when and how to vote.

02:53:24 Gloria she/her: Yes!

02:53:33 V-CSC - Catherine Garoupa White: Agree w/Noehmi: Emailed copies whenever they are ready for review, as far in advance as possible, would be appreciated.

02:53:36 V-R - Regina Reynolds Griffin: I would like hard copies

02:53:43 V-R - Douglas Vigil: yes

02:53:43 V-R - Lenard Seawood: 1 hard copy

02:53:53 V-R - Deby Provost - Reclamation 828: I would like hard copies, as I would like to refer to each. Thank you!

02:54:23 V-R - Ned Leiba : I do not need hard copies.

02:54:25 V-CSC - Tina Lau: I do not need hard copies

02:54:26 GOV - Robyn DeGuzman - SJC Public Health: I do not need a hard copy. Thank you

02:54:37 V-CSC - Catherine Garoupa White: I appreciate the offer and do not need hard copies.

02:54:43 V-R - Mary Elizabeth: I do not need a hard copy

02:54:45 V-CSC - Catherine Garoupa White: I do want emailed copies though. :)

02:54:47 GOV - Trish Johnson: CCAC, Kevin Hamilton: kevin.hamilton@centralcalasthma.org

02:55:12 V-CSC - Jonathan Pruitt: I do not need a hard copy

02:55:16 GOV - Jeff Wingfield: I do not need a hard copy, thank you!

02:55:30 V-R - Deby Provost - Reclamation 828: Bye everyone! Have a nice couple of weeks! See you then or before!

02:55:31 V-R - Victoria Moreno: NO hard copy for me please

02:55:43 Kim Danko - ILG: goodnight, Deby!

02:56:11 V-R - Florence Quilantang: E-mail for me; no hard copy.

02:56:52 V-CSC - Jonathan Pruitt: Thank you for everyone for staying on the call

02:56:56 V-R - Regina Reynolds Griffin: ok

02:57:16 GOV - Trish Johnson: CCAC air monitor visualization: <https://www.sjvair.com/>

02:58:04 V-R - Douglas Vigil: Good night everyone!!!

02:58:16 V-CSC - Catherine Garoupa White: I have previously volunteered.

02:58:48 V-CSC - Dillon Delvo: I think Catherine is saying that she'd like to co-host.

02:59:12 V-CSC - Catherine Garoupa White: Yes, thank you.

02:59:49 Christal Lazard - CARB: Thanks everyone for all your thoughtful input!

02:59:58 V-R - Stacey Panyasee: Thanks everyone!

03:00:17 V-R - Regina Reynolds Griffin: Thanks everyone ! Goodnight.

03:00:25 Kim Danko - ILG: good night, Regina!

03:00:51 V-CSC - Jonathan Pruitt: Goodnight everyone!

03:00:57 V-CSC - Catherine Garoupa White: THanks everyone!

03:00:59 Jose Saldana - CARB EJ Unit: buenas noches todos
