THE CITY OF FRESNO IS INVITING RESPONDENTS
TO SUBMIT PROPOSALS FOR THE
ASSEMBLY BILL 617 (AB 617)
CITY OF FRESNO TRUCK REROUTE STUDY
for the
SOUTH CENTRAL FRESNO COMMUNITY

The City of Fresno (City) Public Works Department in partnership with the San Joaquin Valley Air Pollution Control District (SJVAPCD) desires to procure a consultant team and/or individuals with experience in preparation of technical analyses related to the development of Assembly Bill 617 (AB 617) Truck Reroute Study for the South Central Fresno Community (Project). The consultant team and/or individual should demonstrate experience in key issues, including but not limited to, transportation and circulation, air quality, greenhouse gas emissions, noise, land use. The City is calling for a Truck Reroute Study for this effort.

Upon review of proposals, the City may negotiate with and select for award one or more Respondents, or none. The City reserves the right to reject any and all proposals. Any resulting awards are subject to applicable meet and confer requirements with respective bargaining units.

A. BACKGROUND

Fresno, California is the fifth largest city in California with a diverse population of approximately 527,000, and is located in the Central San Joaquin Valley. Over the next 25 years the population is expected to grow to more than 970,000. With one of the highest concentrations of poverty in the nation, the City is committed to restoring neighborhoods and providing improving the quality of life for all residents in Fresno.

The San Joaquin Air Pollution Control District and the City of Fresno have joined forces to undertake the AB 617 Truck Reroute for the South Central Fresno Community (Project). The Project aims to identify, analyze, and evaluate potential strategies that freight impacted communities in the AB 617 area might take in cooperation with the City of Fresno to abate truck impacts. Such truck impacts include air pollution, noise, polluted runoff, traffic crashes, traffic congestion, active transportation conflicts, residential and school impacts, and excess wear for local pavements and bridges. This measure will study whether heavy-duty trucks travelling within the community can be rerouted to reduce emissions exposure of South Central Fresno community residents. The CARB-derived 2017 community-scale emissions inventory for South Central Fresno indicates that heavy duty trucks emit 596 tpy of NO_x, which is 54% of the mobile source NO_x Inventory, and 32% of the overall NO_x inventory. Furthermore, heavy duty trucks account for 76 tpy of toxic diesel PM emissions in this community, which is 40% of the overall diesel PM inventory. The study will focus on the analysis of existing and future planned truck routes as defined on the September 25, 2005 City of Fresno Designated Truck Route Map in the AB 617 study area, where there are either a large number of trucks or where a more moderate number of trucks conflict with sensitive land uses.

Recommendations for rerouting or the elimination of existing or proposed routes as identified in existing and in process plans and during the community engagement process will also be included in the analysis.

The evaluation will form the basis for modifications to established and planned truck routes as shown on the 2005 City of Fresno Designated Truck Route Map.

The AB 617 study area includes a number of existing manufacturing, warehousing, and logistics businesses. Additional, several vacant sites are being developed. Increased residential and commercial activities, along with continued growth of the freight related industry have resulted in increased traffic congestion and conflict. The area has also been identified as an area with a high concentration of households with low incomes, as well as high concentrations of minority residents or residents with limited proficiency in English. This study acknowledges the need for goods movement, and the economic benefits of the freight industry for the Central Valley Region, while also providing solutions to improve the quality of life and abate the air quality, noise, safety, congestion and other impacts that truck traffic can impose on communities.

The City is seeking an experienced firm or team of professionals to prepare a Truck Reroute Study for the South Central Fresno Community that would support the goals of the AB 617 program to reduce community exposure to air pollution from local sources. The selected Respondent(s) will: 1) have demonstrable experience with preparing environmental review and analysis for projects of similar size and scope; 2) be thorough and knowledgeable about transportation, air quality and health issues; 3) assemble a team (if applicable) that is efficient in meeting deadlines; 4) have a keen understanding and experience in the subject matter. The selected consultant team will work under the direction of the City of Fresno, but is expected to interact frequently with representatives of the SJVAPCD.

B. BUDGET AND TIMELINE

E. SCOPE OF SERVICES

The following section provides a general scope of services anticipated to complete the Study; however, the consultant is encouraged to modify and/or consolidate tasks as needed for efficiencies and would support the goals of the AB 617 program to reduce community exposure to air pollution from local sources. To aid in the preparation of the scope of work, key assumptions are provided in Section F of the RFP.

Overall Project Objectives

The proposed project objective is to identify, analyze, and evaluate potential strategies that freight impacted communities in the Assembly Bill (AB) 617 area might take in cooperation with the City of Fresno to abate truck impacts and provide recommendations for rerouting or eliminating existing or proposed planned routes as shown on the September 25, 2005 City of Fresno Designated Truck Route Map.

Work Plan

Task 1: Project Management

In order to facilitate management, coordination and communication within the planning process and with project partners, the consultant should assume frequent and regular interaction with the City of Fresno project manager throughout the processes. The consultant will be responsible for holding regular project coordination meetings, including producing all meeting materials, notices, attendance lists, minutes/summaries, etc. A project time-line/schedule for each meeting should be provided in the proposal.

As mentioned above, contractors should be aware of recent studies and that parallel study efforts led by the City of Fresno Planning and Development Department, will be underway at the same time as this project, and that coordination and information exchange between that effort and this one is required.

Recent and upcoming Planning and Development efforts in the AB 617 study area include:

Deliverables:

- Project Coordination meeting summaries and attendance lists
- Quarterly status memo provided to the AB617 Community Steering Committee (CSC) and City Council members

Task 2: Outreach and Engagement

The consultant will be expected to create an engagement strategy for various levels of project participation. Outreach and engagement will be ongoing components of the planning process as it is critical that this project adequately engages local, regional, and state stakeholders in various sectors as well as the general public. The City of Fresno and SJVAPCD will review and provide feedback on the engagement strategy and materials at the beginning and throughout the project.

The Engagement Strategy will outline an approach to understand not only existing conditions, community concerns, and aspirations, but also the political realities that could influence decision making and priorities. The consultant should be prepared to engage community leaders and other stakeholders in a dialogue about the relationship between and the need for complementary land use, economic development, environment, and quality of life for communities and residents.

The Engagement Strategy should include the overall outreach and engagement framework, approach, process and schedule, strategies and format, including a list of materials and/or media to be developed to implement that framework, including notices and announcements, publicity materials, presentations, project website, etc. Multiple language formats are required for all materials. A variety of engagement strategies should be considered in order to gather the information necessary to prepare a final deliverable that responds to stakeholder interests and concerns. Strategies may include

key informant interviews, focus groups, workshops, online tools, and other strategies.

General Public Outreach and Engagement:

The consultant will provide a plan that addresses engagement with the general public to help identify and address community concerns. Thorough engagement of the public, particularly potentially impacted community members is important to this process. It is envisioned that this task will require substantial effort and resources in order to: facilitate sufficient dialogue, deliver information to stakeholders, discuss costs, benefits, opportunities, and challenges in and around the study area, and advance a collective vision and an acceptable path forward for the study area.

Key Stakeholder Engagement:

Work on this project will be advised by key stakeholders, which will include representatives of multiple levels of government, as well as participants such as local planning, economic development, transportation, freight/TDL, cultural, agricultural, environmental stakeholders and community residents.

The consultant should propose a structure (steering committee(s) and working groups) to effectively involve key stakeholders as part of their proposal. Key stakeholders may consist of some or all of the following interests and entities: City of Fresno, Fresno County, Caltrans, San Joaquin Valley Air Pollution Control District (SJVAPCD), and Fresno Council of Governments; neighborhood and community interests; schools; industrial, freight, trucking and multimodal interests; transportation interests; environmental, agricultural interests; economic development interests; and private entities such as trucking associations, local railroads, trucking and logistics companies, local businesses, and others. Many of these groups will need to be consulted at several points throughout the plan development process, and the consultant's proposal should allow time for stakeholders to review draft and final deliverables and provide input throughout the planning process.

Additionally, following preparation of the existing condition reports, the consultant should work with the Steering Committees and other key partners to establish a vision and goals for each study in the form of Project Guiding Principles that are consistent with the visions of the General Plan, Southwest Specific Plan, SR 41/North Plan, South Central Specific Plan. These will be informed by the existing conditions report and engagement of stakeholders and the public and should be visionary yet practical and implementable.

The consultant will be responsible for the creation of attendance lists and meeting summaries of public and stakeholder meetings including interviews, focus groups, working sessions, and others.

Deliverables:

- Engagement strategy, final version

- Outreach and Engagement meeting summaries, materials, and attendance lists
- Project Guiding Principles, draft version

Task 3: Existing Conditions Reports

The consultant should explore the existing conditions in the study areas to develop an understanding of current issues and opportunities. They should identify and summarize key considerations, trends, or drivers for the study area, as well as key challenges and opportunities. These reports will provide the foundation, information, and framework for the tasks that follow.

Suggested topics and data for these Existing Conditions Reports are listed below. However, alternative topics and data can be presented in proposals consistent with the consultant's experience, project approach, and expected level of effort. Regardless of the approach, appropriate stakeholder engagement should inform the data collection and analysis process.

- Truck trip generators (from stakeholder interviews, development, truck GPS data, and land use data)
- Data on traffic volume, including limited turning-vehicle classification counts, truck GPS data, truck routes, congestion, and truck restrictions
- Community impacts from trucking, including:
 - Safety issues, including, but not limited to serious collisions and fatalities, pedestrian and bicycle incidents

 - Noise issues
 - Road condition
 - VMT impacts
 - Operational impacts
 - Impacts to local schools within ¼ mile of high volume truck routes
 - Impacts to active transportation facilities
 - Other
- State and local cost of maintaining roads, particularly those supporting high truck volumes.

 - Review of compiled ordinances for recent changes in truck restrictions, if necessary
 - Truck route maps and shapefiles
 - Routing plans for oversize/overweight vehicles
 - Pavement condition reports or pavement management system data
 - Truck regulation enforcement practices

The City of Fresno will collect and provide classified count data along all existing and proposed truck routes for the South Central Fresno Community, as shown on the September 2005 Truck Route Map. Additional classified count data will be provided by the City of Fresno along potential routes proposed through the community engagement process or as requested by the AB 617 subcommittee on Truck Re-Route Study.

Quantitative and qualitative data on existing conditions should be collected via research, data collection, GIS mapping, field reconnaissance, interviews and focus groups, and secondary sources such as public and commercially available datasets. Some of the necessary data may be available through recent or ongoing studies. However, the consultant should not exclusively rely on these sources for data, and other data will have to be secured and/or collected by the consultant. The schedule/timeline for completion of the Existing Conditions Report should include adequate time for review by stakeholders.

Deliverables:

- Truck Routing Study Existing Conditions Report, final version

Task 4: Report National Best Practices for Accommodating Trucks

The consultant shall investigate national best practices to accommodate truck traffic while mitigating negative consequences to adjacent communities. The consultant shall identify and report any applicable approaches. The consultant should also identify best practices and innovation in demand management, such as new approaches to truck parking, overnight delivery, truck only facilities, or other similar strategies.

The consultant should develop Truck Management Approaches being a list of applicable approaches to managing truck movement, detailing the benefits and their applicability to the study area.

Deliverables:

- Truck Management Approaches Report

Task 5: Recommended Truck Routes, Community Strategies, and Implementation Plan

The Study should demonstrate the feasibility and merit of the proposed new route(s), which will aim to include the following metrics: truck counts along current route of interest; identification of alternative routes; accessibility, capacity, VMT impact of proposed alternative routes; and air quality impact of alternative routes on community. A prioritized list of recommended improvements, along with a planning-level cost estimate for each improvement should be included in the Study. The Study should be accompanied by maps and a list of route changes, necessary infrastructure improvements and geometric changes. The plan shall identify and consider deficient/obsolete structures (overpasses, underpasses, bridges). Recommendations to change National Highway System and National Freight Network designations should be included as appropriate. One goal of this initiative is to identify a pipeline of projects to be used for future grant opportunities that implement local and regional priorities and qualify for regional and state calls for projects.

An implementation plan will describe the actions required to designate or improve truck routes, make policy changes, pursue funding, etc., with clear identification of the implementers responsible. This document shall include, but not be limited to, sections on:

- Transportation policy changes;
- Uniform roadway signage and wayfinding improvements;

THIS AGREEMENT is made and entered into effective the [Day of the Month e.g., 1st] day of [Year], by and between the CITY OF FRESNO, a California municipal corporation (CITY), and [Consultant Name], [Legal Identity] (CONSULTANT).

RECITALS

WHEREAS, CITY desires to obtain professional [Kind of Service] services for [Describe Project] (Project); and

WHEREAS, CONSULTANT is engaged in the business of furnishing services as a [Consultant's Profession] and hereby represents that it desires to and is professionally and legally capable of performing the services called for by this Agreement; and

WHEREAS, CONSULTANT acknowledges that this Agreement is subject to the requirements of Fresno Municipal Code Section 4-107 and Administrative Order No. 6-19; and

WHEREAS, this Agreement will be administered for CITY by its (Administrator) or designee.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing and of the covenants, conditions, and premises hereinafter contained to be kept and performed by the respective parties, it is mutually agreed as follows:

1. Scope of Services. CONSULTANT shall perform to the satisfaction of CITY the services described in **Exhibit A**, including all work incidental to, or necessary to perform, such services even though not specifically described in **Exhibit A**.

2. Term of Agreement and Time for Performance. This Agreement shall be effective from the date first set forth above (Effective Date) and shall continue in full force and effect through [End Date], subject to any earlier termination in accordance with this Agreement. The services of CONSULTANT as described in **Exhibit A** are to commence upon the Effective Date and shall be completed in a sequence assuring expeditious completion, but in any event, all such services shall be completed prior to expiration of this Agreement and in accordance with any performance schedule set forth in **Exhibit A**.

3. Compensation.

(a) CONSULTANT'S sole compensation for satisfactory performance of all services required or rendered pursuant to this Agreement shall be a total fee not to exceed [Fee Amount], paid on the basis of the rates set forth in the schedule of fees and expenses contained in **Exhibit A**.

(b) Detailed statements shall be rendered monthly for services performed in the preceding month and will be payable in the normal course of CITY business. CITY shall not be obligated to reimburse any expense for which it has not received a detailed invoice with applicable copies of representative and identifiable receipts or records substantiating such expense.

(c) The parties may modify this Agreement to increase or decrease the scope of services or provide for the rendition of services not required by this Agreement, which modification shall include an adjustment to CONSULTANT'S compensation. Any change in the scope of services must be made by written amendment to the Agreement signed by an authorized representative for each party. CONSULTANT shall not be entitled to any additional compensation if services are performed prior to a signed written amendment.

4. Termination, Remedies and Force Majeure.

(a) This Agreement shall terminate without any liability of CITY to CONSULTANT upon the earlier of: (i) CONSULTANT'S filing for protection under the federal bankruptcy laws, or any bankruptcy petition or petition for receiver commenced by a third party against CONSULTANT; (ii) 7 calendar days prior written notice with or without cause by CITY to CONSULTANT; (iii) CITY'S non-appropriation of funds sufficient to meet its obligations hereunder during any CITY fiscal year of this Agreement, or insufficient funding for the Project; or (iv) expiration of this Agreement.

(b) Immediately upon any termination or expiration of this Agreement, CONSULTANT shall (i) immediately stop all work hereunder; (ii) immediately cause any and all of its subcontractors to cease work; and (iii) return to CITY any and all unearned payments and all properties and materials in the possession of CONSULTANT that are owned by CITY. Subject to the terms of this Agreement, CONSULTANT shall be paid compensation for services satisfactorily performed prior to the effective date of termination. CONSULTANT shall not be paid for any work or services performed or costs incurred which reasonably could have been avoided.

(c) In the event of termination due to failure of CONSULTANT to satisfactorily perform in accordance with the terms of this Agreement, CITY may withhold an amount that would otherwise be payable as an offset to, but not in excess of, CITY'S damages caused by such failure. In no event shall any payment by CITY pursuant to this Agreement constitute a waiver by CITY of any breach of this Agreement which may then exist on the part of CONSULTANT, nor shall such payment impair or prejudice any remedy available to CITY with respect to the breach.

(d) Upon any breach of this Agreement by CONSULTANT, CITY may (i) exercise any right, remedy (in contract, law or equity), or privilege which may be available to it under applicable laws of the State of California or any other applicable law; (ii) proceed by appropriate court action to enforce the terms of the Agreement; and/or (iii) recover all direct, indirect, consequential, economic and incidental damages for the breach of the Agreement. If it is determined that CITY improperly terminated this Agreement for default, such termination shall be deemed a termination for convenience.

(e) CONSULTANT shall provide CITY with adequate written assurances of future performance, upon Administrator's request, in the event CONSULTANT fails to comply with any terms or conditions of this Agreement.

(f) CONSULTANT shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of CONSULTANT and without its fault or negligence such as, acts of God or the public enemy, acts of CITY in its contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. CONSULTANT shall notify Administrator in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, and shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to Administrator of the cessation of such occurrence.

5. Confidential Information and Ownership of Documents.

(a) Any reports, information, or other data prepared or assembled by CONSULTANT pursuant to this Agreement shall not be made available to any individual or organization by CONSULTANT without the prior written approval of the Administrator. During the term of this Agreement, and thereafter, CONSULTANT shall not, without the prior written consent of CITY, disclose to anyone any Confidential Information. The term Confidential Information for the purposes of this Agreement shall include all proprietary and confidential information of CITY, including but not limited to business plans, marketing plans, financial information, materials, compilations, documents, instruments, models, source or object codes and other information disclosed or submitted, orally, in writing, or by any other medium or media. All Confidential Information shall be and remain confidential and proprietary in CITY.

(b) Any and all writings and documents prepared or provided by CONSULTANT pursuant to this Agreement are the property of CITY at the time of preparation and shall be turned over to CITY upon expiration or termination of the Agreement. CONSULTANT shall not permit the reproduction or use thereof by any other person except as otherwise expressly provided herein.

(c) If CONSULTANT should subcontract all or any portion of the services to be performed under this Agreement, CONSULTANT shall cause each subcontractor to also comply with the requirements of this Section 5.

(d) This Section 5 shall survive expiration or termination of this Agreement.

6. Professional Skill. It is further mutually understood and agreed by and between the parties hereto that inasmuch as CONSULTANT represents to CITY that CONSULTANT and its subcontractors, if any, are skilled in the profession and shall perform in accordance with the standards of said profession necessary to perform the services agreed to be done by it under this Agreement, CITY relies upon the skill of CONSULTANT and any subcontractors to do and perform such services in a skillful manner and CONSULTANT agrees to thus perform the services and require the same of any subcontractors. Therefore, any acceptance of such services by CITY shall not operate as a release of CONSULTANT or any subcontractors from said professional standards.

7. Indemnification. To the furthest extent allowed by law, CONSULTANT shall

indemnify, hold harmless and defend CITY and each of its officers, officials, employees, agents, and volunteers from any and all loss, liability, fines, penalties, forfeitures, costs and damages (whether in contract, tort or strict liability, including but not limited to personal injury, death at any time and property damage), and from any and all claims, demands and actions in law or equity (including reasonable attorney's fees and litigation expenses) that arise out of, pertain to, or relate to the negligence, recklessness or willful misconduct of CONSULTANT, its principals, officers, employees, agents, or volunteers in the performance of this Agreement.

If CONSULTANT should subcontract all or any portion of the services to be performed under this Agreement, CONSULTANT shall require each subcontractor to indemnify, hold harmless and defend CITY and each of its officers, officials, employees, agents, and volunteers in accordance with the terms of the preceding paragraph.

This section shall survive termination or expiration of this Agreement.

8. Insurance.

(a) Throughout the life of this Agreement, CONSULTANT shall pay for and maintain in full force and effect all insurance as required in **Exhibit B**, which is incorporated into and part of this Agreement, with an insurance company(ies) either (i) admitted by the California Insurance Commissioner to do business in the State of California and rated no less than "A-VII" in the Best's Insurance Rating Guide, or (ii) as may be authorized in writing by CITY'S Risk Manager or designee at any time and in his/her sole discretion. The required policies of insurance as stated in **Exhibit B** shall maintain limits of liability of not less than those amounts stated therein. However, the insurance limits available to CITY, its officers, officials, employees, agents, and volunteers as additional insureds, shall be the greater of the minimum limits specified therein or the full limit of any insurance proceeds to the named insured.

(b) If at any time during the life of the Agreement or any extension, CONSULTANT or any of its subcontractors/sub-consultants fail to maintain any required insurance in full force and effect, all services and work under this Agreement shall be discontinued immediately, and all payments due or that become due to CONSULTANT shall be withheld until notice is received by CITY that the required insurance has been restored to full force and effect and that the premiums therefore have been paid for a period satisfactory to CITY. Any failure to maintain the required insurance shall be sufficient cause for CITY to terminate this Agreement. No action taken CITY pursuant to this section shall in any way relieve CONSULTANT of its responsibilities under this Agreement. The phrase "fail to maintain any required insurance" shall include, without limitation, notification received by CITY that an insurer has commenced proceedings, or has had proceedings commenced against it, indicating that the insurer is insolvent.

(c) The fact that insurance is obtained by CONSULTANT shall not be deemed to release or diminish the liability of CONSULTANT, including, without limitation, liability under the indemnity provisions of this Agreement. The duty to indemnify CITY shall apply to all claims and liability regardless of whether any insurance policies are applicable. The policy limits do not act as a limitation upon the amount of indemnification to be provided by CONSULTANT. Approval or purchase of any insurance contracts or policies shall in no way relieve from liability nor limit the liability of CONSULTANT, its principals, officers, agents, employees, persons under the supervision of CONSULTANT,

vendors, suppliers, invitees, consultants, sub-consultants, subcontractors, or anyone employed directly or indirectly by any of them.

(d) If CONSULTANT should subcontract all or any portion of the services to be performed under this Agreement, CONSULTANT shall require each subcontractor/sub-consultant to provide insurance protection, as an additional insured, to the CITY and each of its officers, officials, employees, agents, and volunteers in accordance with the terms of this section, except that any required certificates and applicable endorsements shall be on file with CONSULTANT and CITY prior to the commencement of any services by the subcontractor. CONSULTANT and any subcontractor/sub-consultant shall establish additional insured status for CITY, its officers, officials, employees, agents, and volunteers by using Insurance Service Office (ISO) form CG 20 10 11 85 or both CG 20 10 10 01 and CG 20 37 10 01 or by an executed manuscript company endorsement providing additional insured status as broad as that contained in ISO Form CG 20 10 11 85.

9. Conflict of Interest and Non-Solicitation.

(a) Prior to CITY'S execution of this Agreement, CONSULTANT shall complete a City of Fresno conflict of interest disclosure statement in the form as set forth in **Exhibit C**. During the term of this Agreement, CONSULTANT shall have the obligation and duty to immediately notify CITY in writing of any change to the information provided by CONSULTANT in such statement.

(b) CONSULTANT shall comply, and require its subcontractors to comply, with all applicable (i) professional canons and requirements governing avoidance of impermissible client conflicts; and (ii) federal, state and local conflict of interest laws and regulations including, without limitation, California Government Code Section 1090 et. seq., the California Political Reform Act (California Government Code Section 87100 et. seq.) and the regulations of the Fair Political Practices Commission concerning disclosure and disqualification (2 California Code of Regulations Section 18700 et. seq.). At any time, upon written request of CITY, CONSULTANT shall provide a written opinion of its legal counsel and that of any subcontractor that, after a due diligent inquiry, CONSULTANT and the respective subcontractor(s) are in full compliance with all laws and regulations. CONSULTANT shall take, and require its subcontractors to take, reasonable steps to avoid any appearance of a conflict of interest. Upon discovery of any facts giving rise to the appearance of a conflict of interest, CONSULTANT shall immediately notify CITY of these facts in writing.

(c) In performing the work or services to be provided hereunder, CONSULTANT shall not employ or retain the services of any person while such person either is employed by CITY or is a member of any CITY council, commission, board, committee, or similar CITY body. This requirement may be waived in writing by the City Manager, if no actual or potential conflict is involved.

(d) CONSULTANT represents and warrants that it has not paid or agreed to pay any compensation, contingent or otherwise, direct or indirect, to solicit or procure this Agreement or any rights/benefits hereunder.

(e) Neither CONSULTANT, nor any of CONSULTANT'S subcontractors performing any services on this Project, shall bid for, assist anyone in the preparation of a bid for, or perform any services pursuant to, any other contract in connection with this

Project unless fully disclosed to and approved by the City Manager, in advance and in writing. CONSULTANT and any of its subcontractors shall have no interest, direct or indirect, in any other contract with a third party in connection with this Project unless such interest is in accordance with all applicable law and fully disclosed to and approved by the City Manager, in advance and in writing. Notwithstanding any approval given by the City Manager under this provision, CONSULTANT shall remain responsible for complying with Section 9(b), above.

(f) If CONSULTANT should subcontract all or any portion of the work to be performed or services to be provided under this Agreement, CONSULTANT shall include the provisions of this Section 9 in each subcontract and require its subcontractors to comply therewith.

(g) This Section 9 shall survive expiration or termination of this Agreement.

10. Recycling Program. In the event CONSULTANT maintains an office or operates a facility(ies), or is required herein to maintain or operate same, within the incorporated limits of the City of Fresno, CONSULTANT at its sole cost and expense shall:

- (i) Immediately establish and maintain a viable and ongoing recycling program, approved by CITY'S Solid Waste Management Division, for each office and facility. Literature describing CITY recycling programs is available from CITY'S Solid Waste Management Division and by calling City of Fresno Recycling Hotline at (559) 621-1111.
- (ii) Immediately contact CITY'S Solid Waste Management Division at (559) 621-1452 and schedule a free waste audit, and cooperate with such Division in their conduct of the audit for each office and facility.
- (iii) Cooperate with and demonstrate to the satisfaction of CITY'S Solid Waste Management Division the establishment of the recycling program in paragraph (i) above and the ongoing maintenance thereof.

11. General Terms.

(a) Except as otherwise provided by law, all notices expressly required of CITY within the body of this Agreement, and not otherwise specifically provided for, shall be effective only if signed by the Administrator or designee.

(b) Records of CONSULTANT'S expenses pertaining to the Project shall be kept on a generally recognized accounting basis and shall be available to CITY or its authorized representatives upon request during regular business hours throughout the life of this Agreement and for a period of three years after final payment or, if longer, for any period required by law. In addition, all books, documents, papers, and records of CONSULTANT pertaining to the Project shall be available for the purpose of making audits, examinations, excerpts, and transcriptions for the same period of time. If any litigation, claim, negotiations, audit or other action is commenced before the expiration of said time period, all records shall be retained and made available to CITY until such action is resolved, or until the end of said time period whichever shall later occur. If CONSULTANT should subcontract all or any portion of the services to be performed under this Agreement, CONSULTANT shall cause each subcontractor to also comply with the requirements of this paragraph. This Section 11(b) shall survive expiration or termination of this Agreement.

(c) Prior to execution of this Agreement by CITY, CONSULTANT shall have provided evidence to CITY that CONSULTANT is licensed to perform the services called for by this Agreement (or that no license is required). If CONSULTANT should subcontract all or any portion of the work or services to be performed under this Agreement, CONSULTANT shall require each subcontractor to provide evidence to CITY that subcontractor is licensed to perform the services called for by this Agreement (or that no license is required) before beginning work.

12. Nondiscrimination. To the extent required by controlling federal, state and local law, CONSULTANT shall not employ discriminatory practices in the provision of services, employment of personnel, or in any other respect on the basis of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, ethnicity, status as a disabled veteran or veteran of the Vietnam era. Subject to the foregoing and during the performance of this Agreement, CONSULTANT agrees as follows:

(a) CONSULTANT will comply with all applicable laws and regulations providing that no person shall, on the grounds of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, ethnicity, status as a disabled veteran or veteran of the Vietnam era be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity made possible by or resulting from this Agreement.

(b) CONSULTANT will not discriminate against any employee or applicant for employment because of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, and ethnicity, status as a disabled veteran or veteran of the Vietnam era. CONSULTANT shall ensure that applicants are employed, and the employees are treated during employment, without regard to their race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, and ethnicity, status as a disabled veteran or veteran of the Vietnam era. Such requirement shall apply to CONSULTANT'S employment practices including, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

CONSULTANT agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provision of this nondiscrimination clause.

(c) CONSULTANT will, in all solicitations or advertisements for employees placed by or on behalf of CONSULTANT in pursuit hereof, state that all qualified applicants will receive consideration for employment without regard to race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, sexual orientation, ethnicity, status as a disabled veteran or veteran of the Vietnam era.

(d) CONSULTANT will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice advising such labor union or workers' representatives of

CONSULTANT'S commitment under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(e) If CONSULTANT should subcontract all or any portion of the services to be performed under this Agreement, CONSULTANT shall cause each subcontractor to also comply with the requirements of this Section 12.

13. Independent Contractor.

(a) In the furnishing of the services provided for herein, CONSULTANT is acting solely as an independent contractor. Neither CONSULTANT, nor any of its officers, agents, or employees shall be deemed an officer, agent, employee, joint venturer, partner, or associate of CITY for any purpose. CITY shall have no right to control or supervise or direct the manner or method by which CONSULTANT shall perform its work and functions. However, CITY shall retain the right to administer this Agreement so as to verify that CONSULTANT is performing its obligations in accordance with the terms and conditions thereof.

(b) This Agreement does not evidence a partnership or joint venture between CONSULTANT and CITY. CONSULTANT shall have no authority to bind CITY absent CITY'S express written consent. Except to the extent otherwise provided in this Agreement, CONSULTANT shall bear its own costs and expenses in pursuit thereof.

(c) Because of its status as an independent contractor, CONSULTANT and its officers, agents, and employees shall have absolutely no right to employment rights and benefits available to CITY employees. CONSULTANT shall be solely liable and responsible for all payroll and tax withholding and for providing to, or on behalf of, its employees all employee benefits including, without limitation, health, welfare and retirement benefits. In addition, together with its other obligations under this Agreement, CONSULTANT shall be solely responsible, indemnify, defend and save CITY harmless from all matters relating to employment and tax withholding for and payment of CONSULTANT'S employees, including, without limitation, (i) compliance with Social Security and unemployment insurance withholding, payment of workers' compensation benefits, and all other laws and regulations governing matters of employee withholding, taxes and payment; and (ii) any claim of right or interest in CITY employment benefits, entitlements, programs and/or funds offered employees of CITY whether arising by reason of any common law, de facto, leased, or co-employee rights or other theory. It is acknowledged that during the term of this Agreement, CONSULTANT may be providing services to others unrelated to CITY or to this Agreement.

14. Notices. Any notice required or intended to be given to either party under the terms of this Agreement shall be in writing and shall be deemed to be duly given if delivered personally, transmitted by facsimile followed by telephone confirmation of receipt, or sent by United States registered or certified mail, with postage prepaid, return receipt requested, addressed to the party to which notice is to be given at the party's address set forth on the signature page of this Agreement or at such other address as the parties may from time to time designate by written notice. Notices served by United States mail in the manner above described shall be deemed sufficiently served or given at the time of the mailing thereof.

15. Binding. Subject to Section 16, below, once this Agreement is signed by all parties, it shall be binding upon, and shall inure to the benefit of, all parties, and each

parties' respective heirs, successors, assigns, transferees, agents, servants, employees, and representatives.

16. Assignment.

(a) This Agreement is personal to CONSULTANT and there shall be no assignment by CONSULTANT of its rights or obligations under this Agreement without the prior written approval of the City Manager or designee. Any attempted assignment by CONSULTANT, its successors or assigns, shall be null and void unless approved in writing by the City Manager or designee.

(b) CONSULTANT hereby agrees not to assign the payment of any monies due CONSULTANT from CITY under the terms of this Agreement to any other individual(s), corporation(s) or entity (ies). CITY retains the right to pay any and all monies due CONSULTANT directly to CONSULTANT.

17. Compliance With Law. In providing the services required under this Agreement, CONSULTANT shall at all times comply with all applicable laws of the United States, the State of California and CITY, and with all applicable regulations promulgated by federal, state, regional, or local administrative and regulatory agencies, now in force and as they may be enacted, issued, or amended during the term of this Agreement.

18. Waiver. The waiver by either party of a breach by the other of any provision of this Agreement shall not constitute a continuing waiver or a waiver of any subsequent breach of either the same or a different provision of this Agreement. No provisions of this Agreement may be waived unless in writing and signed by all parties to this Agreement. Waiver of any one provision herein shall not be deemed to be a waiver of any other provision herein.

19. Governing Law and Venue. This Agreement shall be governed by, and construed and enforced in accordance with, the laws of the State of California, excluding, however, any conflict of laws rule which would apply the law of another jurisdiction. Venue for purposes of the filing of any action regarding the enforcement or interpretation of this Agreement and any rights and duties hereunder shall be Fresno County, California.

20. Headings. The section headings in this Agreement are for convenience and reference only and shall not be construed or held in any way to explain, modify or add to the interpretation or meaning of the provisions of this Agreement.

21. Severability. The provisions of this Agreement are severable. The invalidity, or unenforceability of any one provision in this Agreement shall not affect the other provisions.

22. Interpretation. The parties acknowledge that this Agreement in its final form is the result of the combined efforts of the parties and that, should any provision of this Agreement be found to be ambiguous in any way, such ambiguity shall not be resolved by construing this Agreement in favor of or against either party, but rather by construing the terms in accordance with their generally accepted meaning.

23. Attorney's Fees. If either party is required to commence any proceeding or legal action to enforce or interpret any term, covenant or condition of this Agreement, the prevailing party in such proceeding or action shall be entitled to recover from the other party its reasonable attorney's fees and legal expenses.

24. Exhibits. Each exhibit and attachment referenced in this Agreement is, by the reference, incorporated into and made a part of this Agreement.

25. Precedence of Documents. In the event of any conflict between the body of this Agreement and any exhibit or attachment hereto, the terms and conditions of the body of this Agreement shall control and take precedence over the terms and conditions expressed within the exhibit or attachment. Furthermore, any terms or conditions contained within any exhibit or attachment hereto which purport to modify the allocation of risk between the parties, provided for within the body of this Agreement, shall be null and void.

26. Cumulative Remedies. No remedy or election hereunder shall be deemed exclusive but shall, wherever possible, be cumulative with all other remedies at law or in equity.

27. No Third Party Beneficiaries. The rights, interests, duties and obligations defined within this Agreement are intended for the specific parties hereto as identified in the preamble of this Agreement. Notwithstanding anything stated to the contrary in this Agreement, it is not intended that any rights or interests in this Agreement benefit or flow to the interest of any third parties.

28. Extent of Agreement. Each party acknowledges that they have read and fully understand the contents of this Agreement. This Agreement represents the entire and integrated agreement between the parties with respect to the subject matter hereof and supersedes all prior negotiations, representations or agreements, either written or oral.
