16:59:46 From Mary Elizabeth to Everyone:

APRIL 29, 2022

Dog Breeds And Dog Behavior, Polar Science Update, Decarbonizing Transportation. April 29,...

16:59:49 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

Thanks for sharing Mary

17:25:09 From CSC-Matt Holmes Resident/Little Manila Rising he/him/his to Everyone:

Locomotive Company doesn't move. That's funny.

17:25:40 From R- Mary, Elizabeth to Everyone:

What does the Tier 4 locomotive have to do with the 4 switchers?

17:25:47 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

2 years wow

17:29:17 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

We should know what the problems are

17:29:21 From ASL Interpreter Stephanie Diamond to Everyone:

Gentle reminder to say your name before commenting to assist with anyone using the ASL interpretation can more easily track the conversation and who is speaking. Thank you!

17:29:22 From Gaby Magana H+Co (she/her) to Everyone:

Hi everyone just a quick reminder - lets try to remember to say our names before our comments

17:29:24 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

It's our funding

17:29:47 From CSC- Cynthia Pinto-Cabrera (she/her) to Everyone:

Clarifying question, where is the testing happening exactly?

17:35:13 From CSC-Matt Holmes Resident/Little Manila Rising he/him/his to Everyone:

I imagine matching those Switcher/Locomotive emissions reductions would be tough to deliver with other equipment incentive strategies.

17:35:25 From R- Mary, Elizabeth to Everyone:

With the price of gas, this will be a hard sell.

17:36:27 From Stephanie Ng - AD (she/hers) to Everyone:

Burn Cleaner retailer list:

<https://www.valleyair.org/grants/apps/burncleaner/assets/documents/BCRetailerList%202.18.2022.pdf>

17:36:37 From CSC-Ed Ward to Everyone:

there are some in Modesto...

17:38:10 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

That's very cool! When was this application from Stan State?

17:38:49 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

Place them at gas stations

17:39:26 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

unfortunately gas stations are the ones that have real estate right next to freeways and other busy corridors

17:39:34 From R-Margo Praus to Everyone:

good idea. Brainstorming might help

17:40:01 From CSC - Espe Vielma EJCW to Everyone:

Yes gas stations

17:40:09 From CSC-Ed Ward to Everyone:

There are some gas stations but not always the best place...

17:40:28 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

Ed, you have contacts of any local owners?

17:40:42 From R-Margo Praus to Everyone:

These sites need to be within the boundaries—right?

17:41:21 From CSC - Espe Vielma EJCW to Everyone:

Brainstorming will be in a separate meeting?

17:42:03 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

unfortunately, there aren't any grocery stores in the boundary zone and won't be able to place EV stations there

17:42:14 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

Grocery stores are usually the other spots

17:42:52 From R- Mary, Elizabeth to Everyone:

Is in the grocery store on MLK and Airport?

17:43:29 From CSC-Ed Ward to Everyone:

A good primer is to watch where Tesla sets up their charging facilities

17:45:10 From Gaby Magana H+Co (she/her) to Everyone:

Thank you for your question Espe, I will make sure to clarify when the brainstorming will happen with the AD

17:45:25 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

My opinion, increasing the funding for residential lawn and garden equipment by \$150,000

17:46:34 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

I got addresses :) They all are in the boundary and excited to get some incentives

17:47:02 From R- Mary, Elizabeth to Everyone:

good job you all:)

17:47:18 From CSC-Matt Holmes Resident/Little Manila Rising he/him/his to Everyone:

👍 Props to Jonathan and Espe' for learning about this appetite in the community that reduces emissions and invests in our neighbors.

17:49:45 From R - Taylor Williams to Everyone:

Late because I was digging up names: Watts Electrical Services and EV Charging Solutions work locally in EV charging installation (and do commercial). Watts is also family / Black-owned and based in Stockton. If you haven't already procured a vendor

17:49:50 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

with tune in tune up events, we can hit many incentives at the same time. Like combining residential electrical lawn equipment replacement at a tune in tune up event

17:51:01 From CSC - Espe Vielma EJCW to Everyone:

Yes residential lawn mower and tune in tune up together

17:57:41 From CSC-Ed Ward to Everyone:

Do we have a understanding regarding schools maintenance funding for filtration

18:00:35 From Gaby Magana H+Co (she/her) to Everyone:

Thanks for asking this. I will ask your question shortly, ED

18:01:27 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

I think that air monitoring should be added the schools if they want school air filters

18:01:58 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

It would be beneficial to see a pre and post assessment

18:02:37 From CSC-Matt Holmes Resident/Little Manila Rising he/him/his to Everyone:

The school district's administration certainly already purchased a high volume of replacement air filters for every campus.

18:04:37 From R- Mary, Elizabeth to Everyone:

Stockton Unified School District  
Health and Safety Plan 2021

18:04:58 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

The school district also passed a resolution to commit to CA clear air day and looking into air monitors. I'm trying to find that exact resolution that was passed in 2020

18:06:40 From CSC-Matt Holmes Resident/Little Manila Rising he/him/his to Everyone:

Talking about this Jonathan?

18:07:55 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

Found the resolution

18:09:36 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

@Maria, thank you!

18:10:08 From CSC- Jonathan Pruitt Catholic Charities to Everyone:

Gil went to Modesto City Schools and brought his energy over there

18:10:23 From Kyle Goff - CARB - he/him/his to Everyone:

Very much can confirm what Jessica's saying here -- as the "school bus guy" for Moyer, school buses don't get nearly as much bang-for-our-buck as other heavy-duty diesel incentives, but the fact that those emission reductions happen adjacent to kids gives those reductions a sort of "outsized importance" relative to any other emission reductions.
