

Meeting Highlights*
AB 617 Truck Reroute Subcommittee Meeting
June 9, 2021 | 5:00 pm - 6:00 pm
Virtual Zoom Meeting

Action items for San Joaquin Valley Air Pollution Control District (District):

- Proposed Budget breakdown
- Agendize RFP for discussion at next CSC to go over document and provide City of Fresno support to move forward with posting the RFP
- City of Fresno agreed to review and share the City of Fresno budget that ensures the money is rolled over
- Review South West Specific Plan; look at their goals and objectives. There was a suggestion already made about truck rerouting for Fresno

Truck Reroute Discussion:

Subcommittee is supportive of the idea of UC Merced collaborating with the City of Fresno to conduct the health research portion of the project. UC Merced does make all of their research available to the public and this was a top priority for the subcommittee.

Committee wants to voice their input on how to spend \$500,000. They want a decision made soon. It was stated that the research portion would be funded by the City of Fresno. No major objections for the RFP to consultants. If all goes well the study will be completed in 2023.
