17:16:51 From CSC - Emma De La Rosa to Everyone:

What was the amount for 21-22?

17:17:09 From Brian Moore | CARB to Everyone:

Hey Emma! The amounts have been constant for the last 3 years.

17:17:54 From Brian Moore | CARB to Everyone:

We use this year as an example, because the State budget got a little weird with the COVID Pandemic. But these general numbers hold for this year as well.

17:18:33 From Spanish Interpreter Tania, Linguistica to Everyone:

De CSC - Emma De La Rosa

¿Cuál fue la cantidad para el 21-22?

17:18:34 From Brian Moore | CARB to Everyone:

@emma, Sorry to be confusing, we use 2019 as an example that still applies for this year, is what I meant.

17:19:33 From Spanish Interpreter Tania, Linguistica to Everyone:

De Brian Moore | CARB

@emma, Perdón por la confusión, usamos el 2019 como un ejemplo que todavía se aplica para este año, es lo que quise decir.

17:21:05 From Brian Moore | CARB to Everyone:

That's correct. This is CARB's statewide budget.

Gustavo a todos: que significa BARCT

17:50:19 From Brian Moore | CARB to Everyone:

Hi Gustavo: BARCT = Best Available Retrofit Control Technology. When a facility is upgrading their equipment, they would have to install emission control technology, based on the "best" technology that is available and proven to work.

17:51:32 From Reyna Rodriguez, Lingüística Interpreting and Translation to Everyone:

Hola Gustavo: BARCT = La mejor tecnología de control de actualización disponible. Cuando una instalación está actualizando su equipo, tendría que instalar tecnología de control de emisiones, basada en la "mejor" tecnología que esté disponible y que se haya comprobado que funciona.

17:53:58 From Jesus Perez to Liz Lev, H+Co (she/her)(Direct Message):

Got kicked off momentarily from the meeting. I'm back on

I accidentally sent my reply to the whole group.. oops! Thanks for letting me know!

18:00:34 From CSC-R- Jesus G. Perez, Lamont to Liz Lev, H+Co (she/her)(Direct Message):

Sorry it happened again

18:01:40 From P - Linda Urata Kern COG to Everyone:

From what I have seen in other communities, the process is not like a household budget. It's not like the District says 'you have \$1 million to spend' prioritize the strategies on where you want to spend the dollars. The strategies are identified independent of the budget. Is that correct?

18:02:50 From Amy Ramos, H+Co (she, her, ella) to Everyone:

Thank you Linda! We will read questions from the public at 6:55pm

18:03:03 From Liz Lev, H+Co (she/her) to CSC-R- Jesus G. Perez, Lamont(Direct Message):

No problem, I'll make sure you're marked as present for the whole duration. If you keep getting kicked off, you can also watch via YouTube so you don't miss anything

18:05:02 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Linda a todos: Por lo que he visto en otras comunidades, el proceso no es como un presupuesto familiar. No es como si el Distrito dijera 'tienes \$1 millón para gastar' prioriza las estrategias sobre dónde quieres gastar los dólares. Las estrategias se identifican independientemente del presupuesto. ¿Es eso correcto?

Thank you Liz. I think my cell phone screen was being sensitive and booting me. :)

18:13:15 From R-CSC, Kent Stenderup to Everyone:

Chay, please remind me....Our grant money pays the initial cost and who pays the continued maintenance? Our budget or the District?

18:14:31 From AD - Ryan Hayashi to Everyone:

@Kent, the ongoing maintenance is covered under the implementation funds provided by CARB to air districts. This funding is given on a year-by-year basis.

18:15:30 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Kent a todos: Chay, por favor recuérdame... El dinero de nuestra subvención paga el costo inicial y ¿quién paga el mantenimiento continuo? ¿Nuestro presupuesto o el Distrito?

18:16:05 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Ryan a todos: @Kent, el mantenimiento continuo está cubierto por los fondos de implementación proporcionados por CARB a los distritos de aire. Esta financiación se otorga año por año.

18:16:41 From R-CSC, Kent Stenderup to Everyone:

Thank you Ryan and Chay.

18:31:35 From CSC - Emma De La Rosa to Everyone:

I support Jesus's point.

18:31:53 From CSC - Emma De La Rosa to Everyone:

Plus there is a dairy near by that is also causing concern

18:40:32 From Spanish Interpreter Tania, Linguistica to Everyone:

From Liz Lev, H+Co  
@Maria yes it's ok, good night!

18:40:36 From R - Maria Teresa Luque to Everyone:

gracias...buenas noches...excelente trabajo....

18:40:57 From Amy Ramos, H+Co (she, her, ella) to Everyone:

We will go thru all potential sites. Feel free to add your questions, comments, and concerns here. We will open it up for questions after review of the sites.

18:41:18 From Spanish Interpreter Tania, Linguistica to Everyone:

From R - Maria Teresa Luque  
thank you...good night...excellent work....

18:41:20 From CSC - Jesus Alonso to Everyone:

Could you clarify why Alicante was proposed instead of with Lamont school

18:41:37 From CSC - Emma De La Rosa to Everyone:

I support the need to add a monitor in the northern area of section A. While the refinery may have monitors, the refinery is also a great source for truck traffic and the northern area of section A is also closer to the 58.

18:41:40 From Spanish Interpreter Tania, Linguistica to Everyone:

De Amy Ramos, H+Co

Revisaremos todos los sitios potenciales. Siéntase libre de añadir sus preguntas, comentarios y preocupaciones aquí. Lo abriremos para preguntas después de la revisión de los sitios.

18:42:04 From Spanish Interpreter Tania, Linguistica to Everyone:

De CSC - Jesús Alonso

Podrías aclarar por qué se propuso Alicante en lugar de con el colegio Lamont

18:42:25 From Spanish Interpreter Tania, Linguistica to Everyone:

De CSC - Emma De La Rosa

Apoyo la necesidad de añadir un monitor en la zona norte de la sección A. Aunque la refinería puede tener monitores, la refinería también es una gran fuente de tráfico de camiones y la zona norte de la sección A también está más cerca de la 58.

18:44:53 From AD - Ryan Hayashi to Everyone:

@Emma, thank you for sharing your recommendation

18:46:06 From Spanish Interpreter Tania, Linguistica to Everyone:

De AD - Ryan Hayashi

@Emma, gracias por compartir tu recomendación

18:47:51 From Byanka Santoyo to Everyone:

For section g no permanent monitoring that is concerning!!!

18:48:19 From Spanish Interpreter Tania, Linguistica to Everyone:

De Byanka Santoyo

¡¡¡Para la sección g no hay seguimiento permanente que es preocupante!!!

18:49:34 From AD - Ryan Hayashi to Everyone:

@Byanka, the proposal for Section G would to be to deploy the air monitoring trailer that would be installed and intended to stay in one location.

18:49:54 From Spanish Interpreter Tania, Linguistica to Everyone:

De AD - Ryan Hayashi

@Byanka, la propuesta para la Sección G sería desplegar el remolque de monitoreo del aire que se instalaría y se pretende que permanezca en un solo lugar.

18:52:14 From CSC - Alt - Gustavo Aguirre CRPE to Everyone:

Alicante is not far from the dairy and can capture its pollution

18:54:25 From Spanish Interpreter Tania, Linguistica to Everyone:

De CSC - Alt - Gustavo Aguirre CRPE

Alicante no está lejos de la central lechera y puede captar su contaminación

18:58:25 From CSC - Jesus Alonso to Everyone:

I Agree with Byanka

18:58:33 From Christine Viterelli-City of Arvin to Everyone:

The City of Arvin has offered to provide a location for air monitoring right next to the 223 at our transit/City Hall facility. I don't know why there would be no location for air monitoring in Arvin?

18:58:51 From Spanish Interpreter Tania, Linguistica to Everyone:

De CSC - Jesús Alonso

Estoy de acuerdo con Byanka

18:59:10 From Spanish Interpreter Tania, Linguistica to Everyone:

De Christine Viterelli-Ciudad de Arvin

La ciudad de Arvin se ha ofrecido a proporcionar una ubicación para el monitoreo del aire justo al lado de la 223 en nuestra instalación de tránsito/Ayuntamiento. No sé por qué no hay una ubicación para el monitoreo del aire en Arvin.

18:59:57 From Byanka Santoyo to Everyone:

We are still sharing the van with all the ab 617 communities

19:00:06 From Glenn Fankhauser - kern ag to Everyone:

If the pesticide air monitors show high pesticide readings, we could definitely discuss that at that time.

19:00:19 From Byanka Santoyo to Everyone:

And that is not clear in the days that we would like

19:04:10 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Byanka a todos: Seguimos compartiendo la camioneta con todas las comunidades AB 617

Glenn a todos: Si los monitores de pesticidas en el aire muestran lecturas más altas de pesticidas, definitivamente podríamos discutir eso en ese momento.

19:04:31 From James Pham (CARB) to Everyone:

Byanka, we don't currently have the technology to measure for pesticides in real time. So that may not help in deciding where to put additional monitors. CARB is supportive of helping the CSC achieve its air monitoring goals, including monitoring for pesticides.

19:04:57 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Byanka a todos: Y eso no está claro en los días que nos gustaría

19:05:23 From James Pham (CARB) to Everyone:

I'm the CARB Monitoring Laision, so please feel free to forward any non-Air District monitoring questions to me

19:05:25 From Co-Lead Gus Jr CCEJN to Everyone:

Is this a true summary: As of now- 5 PM 2.5 monitors/ 1 mobile Van / 1 trailer/ 1 compact multi sensor monitor for Arvin/Lamont Ab 617??

19:05:30 From James Pham (CARB) to Everyone:

James.Pham@ARB.CA.Gov

19:06:02 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

James a todos: Byanka, actualmente no tenemos la tecnología para medir pesticidas en tiempo real. Entonces eso puede no ayudar a decidir dónde colocar monitores adicionales. CARB apoya el ayudar al CSC a lograr sus objetivos de monitoreo del aire, incluido el monitoreo de pesticidas.

19:06:43 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

James a todos: Soy el enlace de monitoreo de CARB, así que no dude en enviarme cualquier pregunta de monitoreo que no sea del Distrito.

19:07:02 From AD - Heather Heinks to Everyone:

Odon was the iPhone, he might have dropped off and lost his naming

19:08:46 From AD - Chay Thao to Everyone:

Gus JR, yes correct.

19:09:08 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Gus a todos: ¿Es este un resumen verdadero?: a partir de ahora- 5 monitores PM 2.5/ 1 camioneta móvil/ 1 remolque/ 1 monitor multisensor compacto para Arvin/Lamont Ab 617

19:09:34 From Deldi Reyes CARB to Everyone:

@Liz, please include CARB in the coordination re pesticides monitoring. Thank you.

19:10:28 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Heather a todos: Odon era el iPhone, podría haberse caído y se pudo haber borrado su designacion de nombre

19:10:53 From Liz Lev, H+Co (she/her) to Everyone:

@Deldi for sure!

19:10:55 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Chay a todos: Gus JR, si, correcto

19:11:33 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Deldi a todos: @Liz, incluye a CARB en la coordinación del monitoreo de pesticidas. Gracias.

19:12:33 From Byanka Santoyo to Everyone:

We just don't like that industry want to take the majority of the ab 617 funding

19:13:04 From R - CSC - Minerva Contreras. Ella to Everyone:

yo tambien estoy de acuerdo con Gustavo que es necesario monitores en las lecherias asi podemos medir cuanto sale y cuanto llega a la comunidad , espero mi comentario sea entendido

19:13:36 From Glenn Fankhauser - kern ag to Everyone:

But industry is one of the major pollutants, right?

19:13:43 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Byanka a todos: Simplemente no nos gusta que la industria quiera tomar la mayoría de los fondos AB 617

19:14:11 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Minera to all :I also agree with Gustavo that monitors are necessary in the dairies so we can measure how much goes out and how much comes to the community, I hope my comment is understood

19:14:44 From Support Line, Reyna, Linguistica Interpreting & Translation to Everyone:

Glenn a todos: Pero la industria es uno de los mayores contaminantes, ¿no?

19:14:52 From Byanka Santoyo to Everyone:

Should be community incentive not just driven to industry the major polluters
