

CSC Values

1

Maximizing
emissions
reductions in the
CERP

2

Pursuing solutions
that protect
communities as
soon as possible

3

Ensuring the funds
are allocated as
soon as possible

CSC Values

1

Maximizing emissions reductions in the CERP

2

Pursuing solutions that protect communities as soon as possible

3

Ensuring the funds are allocated as soon as possible

- *Which of the following values best aligns with you and how you would like to make decisions for the CERP implementation? Why is this value important to you?*
- *If the value that comes to mind for you is not listed here, what is a value that drives your decision making? Why is the value important to you?*

Reflection Considerations

How does this choice relate to the values you hold?

How does this relate to the values the collective CSC holds?

Does this next step align with the CSC's collective values?

Do you feel confident in moving forward with the decision? If not, what do you need to feel confident with this group decision?
