01:07:22 R - Mary Elizabeth: How many cars can be purchased with existing funds.

01:12:58 Brian Dodds - AD: Here is an example on the type of car that would be purchased on this program option.

01:18:05 CSC- Nate Knodt: I wish to increase the amount from \$12,000 to \$20,000 as I believe this will ultimately improve the acquisition of these cars.

01:18:56 R - Douglas Vigil: yes

01:24:00 R - Provost, Deby, Reclamation District 828: I thought the Repair portion was EXTREMELY easy to apply for and obtain the monetary assistance. However, the repair center that was able to get me in was terrible, and their hourly rate was ex1orbitant at \$160 an hour, so I ended up having to pay more than if I took It somewhere else. Also, I found out today, because of the way they installed it, I am not able to put it up on a normal ramp any longer!! I love this program and really want to see it succeed, but that type of issue can ruin a good program..

01:24:27 R -Margo Praus:I think this is a great program. Will need to get the word out.!
