17:45:30 From P-Bianca Lopez-VIP : Good point!

17:46:44 From P-Guadalupe Lopez : Guadalupe Lopez

17:47:09 From Spanish Interpreter, Tania, Linguistica : P-Bianca López-VIP
¡Buen punto!

17:50:45 From CSC-R- Ebelyn Chavez : If the program is to reduce emissions overall, why would this be limited to low income? Most high end vehicles are combustion engines aka gas guzzlers. They should also be incentivized if they live within the boundaries.

17:51:18 From Spanish Interpreter, Tania, Linguistica : CSC-R- Ebelyn Chavez
Si el programa es para reducir las emisiones en general, ¿por qué se limita a los de bajos ingresos? La mayoría de los vehículos de gama alta son motores de combustión aka gas guzzlers. También deben ser incentivados si viven dentro de los límites.

17:51:42 From P-Bianca Lopez-VIP : Check out EEquity.com- the Clean Vehicle Empowerment Collaborative engages with Disadvantaged communities and does great community education about EVs, their EV Equity Team will walk the community members through these processes and will help with financial literacy prior to committing to purchasing a new car

17:53:41 From Spanish Interpreter, Tania, Linguistica : P-Bianca López-VIP
Echa un vistazo a EEquity.com - el Clean Vehicle Empowerment Collaborative se compromete con las comunidades desfavorecidas y hace una gran educación de la comunidad sobre los vehículos eléctricos, su equipo de equidad EV guiará a los miembros de la comunidad a través de estos procesos y ayudará con la educación financiera antes de comprometerse a comprar un coche nuevo.

17:57:25 From CSC- Sandra Plascencia : can the air district connect with the KCOG about future funding for ev chargers? Can the AD share financing companies previously used by folks? What is the anticipated launch date?

17:58:41 From Spanish Interpreter, Tania, Linguistica : CSC- Sandra Plascencia ¿puede el distrito del aire conectar con el KCOG sobre la financiación futura para los cargadores ev? ¿Puede el DA compartir compañías de financiación previamente utilizadas por la gente? ¿Cuál es la fecha de lanzamiento prevista?

17:58:52 From P-Bianca Lopez-VIP : If any orgs or CBOs want to join our efforts please reach out to me bianca@vip209.org

17:58:54 From AD - Jessica Olsen : Great suggestions! we hope to launch in a couple months at the latest.

18:03:14 From Kevin M. Wing – AD : Replying to "thanks @Kevin M. Win..."

Thank you for having me. It was a pleasure to meet the community this evening. Have a wonderful night.

18:03:23 From AD-Eric Salas : Reacted to "thanks @Kevin M. Win..." with 👍

18:07:58 From Spanish Interpreter-Dayana-Linguística : Kevin M. Wing -AD: Gracias por recibirme. Ha sido un placer conocer a la comunidad esta noche. Que tengan una noche maravillosa.

18:08:48 From Christine Viterelli-City of Arvin : EVs have very little maintenance, and no gas expenditures, tires do wear quicker so you can anticipate purchasing a new set of tires every 18 months. I also have an EV and love the gas savings which makes up for their additional cost. The City of Arvin has chargers available behind the Veteran's hall that is set at the cost of electricity only. We also are almost completed with a new DC-Fast charger and 3 new level 2 chargers available for public charging in the Arvin Transit park and ride. The DC Charger will give your car a full charge in about 30 minutes or less depending on how much energy you start with when charging.

18:09:46 From Amy Ramos, H+Co : Reacted to "EVs have very little..." with 🙏

18:10:14 From AD-Eric Salas : Vegetative Barriers Fact Sheet:
<https://community.valleyair.org/media/32pjdao0/vegitative-barriers-fact-sheet-1-24-24.pdf>

18:10:45 From R- María Villa : Trabajen en formar una de esas barreras en la comunidad! Del fuller acrer

ay un terreno allí cerca por el cual no se an pagado taxes, se pudiera investigar quien es el dueño..

18:10:48 From AD-Eric Salas : Reacted to "EVs have very little..." with 🙏

18:13:09 From Spanish Interpreter-Dayana-Linguística : Christine Viterelli, City of Arvin: Los vehículos eléctricos tienen muy poco mantenimiento y no gastan gasolina. Los neumáticos se desgastan más rápido, por lo que hay que prever la compra de un juego nuevo de neumáticos cada 18 meses. Yo también tengo un EV y me encanta el ahorro de gas que compensa su costo adicional. La ciudad de Arvin tiene cargadores disponibles detrás de la sala de Veteranos que se establece en el costo de la electricidad solamente. También estamos casi terminado con un nuevo cargador de DC-Fast y 3 nuevos cargadores de nivel 2 disponibles para la carga pública en el parque de tránsito Arvin y paseo. El cargador de CC le dará a su coche una carga completa en unos 30 minutos o menos, dependiendo de la cantidad de energía que se inicia cuando la carga.

18:14:20 From Spanish Interpreter-Dayana-Linguística : R - Maria Villa: Work on forming one of those barriers in the community! From Fuller Acres
there is a piece of land nearby for which no taxes have been paid, could you investigate who owns it?

Kern Energy

18:58:31 From Spanish Interpreter, Tania, Linguistica : P-Bianca López-VIP a PM
¿A quién representa Malinda hoy?

CSC- Sandra Plascencia
¡Gracias por la aclaración!

18:59:53 From P-Bianca Lopez-VIP : It's concerning to hear industry reps make statements about health impacts in regards to the flares. Maybe the air district should respond to those questions

19:00:17 From Cesar Aguirre (he/him) CCEJN : Reacted to "It's concerning to h..." with 👍

19:00:33 From P-Bianca Lopez-VIP : Reacted to It's concerning to h... with "👍"

19:00:35 From P-Bianca Lopez-VIP : Removed a 👍 reaction from "It's concerning to h..."

19:02:23 From Spanish Interpreter-Dayana-Linguística : P - Bianca Lopez - VIP: Es preocupante oír a los representantes de la industria hacer declaraciones sobre el impacto en la salud de las llamaradas. Tal vez el distrito de aire debe responder a esas preguntas

19:04:21 From CSC- Sandra Plascencia : Reacted to "It's concerning to h..." with ❤️

19:05:39 From Yvan Delgado - DPR : for questions, feel free to reach out anytime!
