01:21:18 Stephanie Ng - Valley Air District: Reacted to "Greate info Port of ..." with 👍

01:30:16 CSC - Spencer Fern - Restore the Delta: We do have research into HABs and water quality issues, but I'd also add that we tap into flood protection and levee infrastructure

01:36:11 R Mary Elizabeth: Have not heard anything about the Mormon Slough project.

01:39:33 CSC R Ned Leiba: In terms of ask: Why not place co2 monitors with our air quality monitors, get a time series of apparent emissions and changes especially in light of mitigation strategies. Compare to the various co2 emission estimates and inventories. Then see if any relationship to "extreme" events.

01:43:07 Morgan Chow, Delta Stewardship Council: Mary Elizabeth, Restore the Delta is the best group to connect with for Mormon Slough!

01:43:15 CSC R - Nate Knodt: Last year Stockton faced serious household basement flooding from rising water table!

01:43:54 Amy Ramos, H+Co: From Regina to Morgan: I am concerned do you all have any projections concerning the preservation of our levees

01:44:18 R-Deby Provost, Reclamation District 828: Reacted to "Map and Zoom-in ar..." with 🙌

01:44:21 R-Deby Provost, Reclamation District 828: Reacted to "Map and Zoom-in ar..." with 🙌

01:45:45 CSC-Espe Vielma EJCW: Thank you. Morgan! We would like the DSC to engage with our EJ organizations in both English and Spanish. We need more information. I would appreciate follow up information about engagement with our EJ communities. Gracias Espe Vielma EJCW Environmental Justice Coalition for [Waterspe@ejc4w.org](mailto:Waterspe@ejc4w.org)

01:47:13 R-Deby Provost, Reclamation District 828: I have one quick question please!

01:47:24 CSC R - Nate Knodt: I second Espe Vielma's message regarding with the Stewardship Council engaging with the Environmental Justice Coalition (EJCW).

01:48:41 Morgan Chow, Delta Stewardship Council: Ned, we agree that emission reduction is a major goal and benefit from adaptation strategies - we haven't proposed specific monitors, but we do have a metrics report that will go with the plan that estimates ghg emission benefits from various land uses

01:48:53 CSC-Espe Vielma EJCW: Morgan Thank you for your presentation

01:49:02 Amy Ramos, H+Co: Reacted to "Morgan Thank you for..." with 🙌

01:50:02 CSC R - Nate Knodt: I am going to become more acquainted with this organization so that information and presentations can be made to the Stockton Downtown Comeback Club (DCC) for our year-round weekly Thursday morning breakfast meetings.

01:50:43 Morgan Chow, Delta Stewardship Council: Regina - our vulnerability assessment: <https://www.deltacouncil.ca.gov/pdf/delta-plan/2021-06-25-delta-adapts-vulnerability-assessment.pdf> includes a flood risk analysis for overtopping for the region's levees - that is where the info came from that I shared

01:52:02 Morgan Chow, Delta Stewardship Council: Espe, we'd love to re-engage with you all - it has been a while! Annie and I will reach out for a follow-up for the best way to engage. We don't have Spanish speaking staff, but we do have translated fliers that summarize the information I shared for Stockton, Pittsburg, and Antioch.

01:53:36 Morgan Chow, Delta Stewardship Council: Nate, we would love to give a presentation to the Stockton Downtown Comeback Club, please reach out if you'd like to chat further you can email me ([morgan.chow@deltacouncil.ca.gov](mailto:morgan.chow@deltacouncil.ca.gov)) and Annie ([annie.merritt@deltacouncil.ca.gov](mailto:annie.merritt@deltacouncil.ca.gov))

01:54:47 CSC R - Nate Knodt: In order to attend a Public Forum in Downtown Stockton at SJCOG Bldg. to review a \$20 Million Grant awarded to Stockton's Miracle Mile and then also a Candidate Forum for Stockton Mayoral Candidates at Delta College, I will have to leave meeting at 6:38. Events begin tonight at 6:00 and 6:30 pm, respectively. Nate Knodt - CSC Thank you Jeff Wingfield, Ravi Narayanan, Jermaine Reese, Morgan Chow, Amy, and Stephanie!

01:55:41 Amy Ramos, H+Co: Reacted to "In order to attend a..." with 🙌

01:57:27 CSC R - Nate Knodt: SUSD may have a challenge with charging the Electric Bus Fleet beginning in the next school year as the fleet expands greatly.

01:58:54 CSC R Ned Leiba: Cost per unit 386,627.10/81 unit=4774. Is that correct?. Seems high?

02:00:12 CSC - Gloria Alonso, Little Manila Rising: Thanks Jermaine for the details

02:00:32 R Mary Elizabeth: When we were looking at school buses no private schools were deemed eligible. I hear that only 27 schools in the 617 boundary but have 81? Is AB617 funding outside of boundary? Such as chargers? More money for chargers? The City's new parking lot plans did not appear to include chargers or bike racks.

02:00:54 R-Deby Provost, Reclamation District 828: I don't like to be rushed during this whole thing. If we are going to allow someone to speak, they should be given the time. We should not rush through these items, wich we then rush through our own AB617 items! Not good.

02:04:34 R Mary Elizabeth: I would like to see a list of equipment and prices.

02:06:30 CSC R - Regina Griffin: Well I'd also like to see a list of equipment

02:06:40 CSC R - Regina Griffin: And prices

02:06:45 R- Bobby Gomez & Jazzy LaTour: This sounds good to me to move our schools to electric appliances. Follow up questions: have we had other commercial interest in this measure?

02:08:44 CSC R Ned Leiba: Good we get a little more information?

02:09:04 R Mary Elizabeth: agreed with Margo.

02:10:31 CSC R - Regina Griffin: Debbie put it in chat for us

02:14:10 R-Deby Provost, Reclamation District 828: Dino and Sons are a great provider that can do that work, Nicholas.

02:14:33 R-Deby Provost, Reclamation District 828: Nicholas also, what about trees for homes?

02:16:00 Nicolas Tamayo I Little Manila Rising I he,him,his: Yea! The urban greening proposal is focused on home plantings and plantings on properties managed by businesses and churches

02:18:50 Jonathan London (UC Davis): In case we don't have time to present:. Our UC Davis team is conducting on-going research on how well AB 617 is benefiting and reflecting the priorities of local communities. This includes CSC and other stakeholder interviews in Stockton and the Valley. These are confidential 1-hour interviews with \$50 honoraria for residents. If interested, please contact Professor Jonathan London: [jlondon@ucdavis.edu](mailto:jlondon@ucdavis.edu)

02:23:58 CSC-Espe Vielma EJCW: Gracias Dr. Jonathan London!!

02:25:15 CSC - Gloria Alonso, Little Manila Rising: We don't have time but here are some news on recent EPA regulation on PM2.5 standards:

<https://www.epa.gov/newsreleases/epa-finalizes-stronger-standards-harmful-soot-pollution-significantly-increasing>

02:25:50 R- Douglas Vigil: Bye everyone good evening

02:26:22 CSC - Gloria Alonso, Little Manila Rising: Thanks everyone, see you next month(:
