

## Stockton AB 617 CSC Meeting- Chat Transcript March 6, 2024 5:00-7:00p.m

00:42:18 Rocio Calderon- AD: Stockton CERP Implementation  
Updates presentation [https://community.valleyair.org/media/14fhghuj/3624\\_stockton-cerp-updates-v2.pdf](https://community.valleyair.org/media/14fhghuj/3624_stockton-cerp-updates-v2.pdf)

00:49:57 CSC - R-Margo Praus: please talk a little slower

00:50:31 Stephanie Ng - Valley Air District: Reacted to "please talk a little..." with 👍

00:53:58 CSC - R -Regina Griffin: Has there been any outreach to business owners in the area.?

00:57:38 CSC - Ned Leiba: LG.2 in CERP 5 unites x 20k (or 25k) = 100k. No estimate of emissions reduction was provided.  
Now: We are looking for consensus to add \$386,627.10 to Commercial Lawn and Garden measure to replace gas-powered equipment at Stockton Unified School District schools within the AB 617 boundary.  
How many units?  
Ave cost?  
What is the estimated emissions reductions?  
What is the cost per metric ton of emission reductions for this measure?  
Thanks.

01:01:26 CSC - Ned Leiba: I must leave, but hopefully you can ponder answers to my questions about added funding for LG.2. Too bad we could not utilize funds for air filtration which seems to have direct benefits for health and I suspect is very cost effective. Thanks.

01:04:50 CSC - R - Mary Elizabeth: I would like to half of the extra money set aside for a time for other commercial users for a period of time.

01:04:54 CSC - R- Bobby Gomez & Jazmarie LaTour: We for this funding reallocation. - Jazzy & Bobby
