

Stockton AB 617 Trees Subcommittee Meeting – Chat Transcript Jul. 19, 2022 4-5 p.m

00:07:58 Douglas Vigil R he/him: echo loud

00:11:12 Stephanie Ng: https://community.valleyair.org/media/4117/stockton-vegetative-barriers-rfp-draft_072022.pdf

00:14:14 Douglas Vigil: I will shut down my computer I'm still echo ok I be right back thank you

00:18:19 Nate Knodt: Sorry that I am late. I had to rearrange my schedule to participate today.

00:24:31 Mary Elizabeth: Hello, Thankfully today is not as hot as yesterday. There is a new Environmental Justice resource - Extreme Heat: Watch the demo webinar recording In case you missed it, our webinar on July 11 demonstrated how the tool can provide practical information for a variety of users, like local municipalities, nonprofit organizations and households. <https://www.youtube.com/watch?v=ALMYo0i6Cwo> Also, here is a supporting technical document: <https://innovation.luskin.ucla.edu/wp-content/uploads/2022/06/HPI-Heat-Edition-Technical-Report-and-User-Guide.pdf>

00:29:52 Margo Praus: It looked thorough to me.

00:31:10 Nate Knodt: I share Ned's advocacy and persistence in having a strong health monitoring and health outcomes review and study as part of the Trees & Barriers planting and implementation project. Nate - EJCW

00:33:35 Ned Leiba: Thank you Nate. Of course I agree that monitoring is important for urban greening (trees) but more so for vegetative barriers. To the extent we have that scoring criteria for urban greening, that is good, but I think it is vital for VB.

00:35:04 Nate Knodt: Yes the Barriers could provide the most definitive info and outcomes and could provide "breakthrough" information over time!

00:35:41 Stephanie Ng: <https://community.valleyair.org/selected-communities/stockton/grant-applications-and-project-plans/>

00:36:38 Nate Knodt: I appreciate the comments and modifications provided by David Lopez and Stephanie today.
