00:31:27 CSC_ Ector Olivares: Do you have the El Concilio center that is on that is on Sutter St?

00:34:29 R - Nate Knodt - Stockton: I meant creating "cCommercial List" of facilities above rather than residential.

00:36:38 R- Jazmarie & Bobby: Sorry if this was mentioned, will these facilities receive additional filters like the residents? - Jazzy

00:39:15 R- Jazmarie & Bobby: okay

00:39:23 R - Nate Knodt - Stockton: I support the proposed expansion as I think cleaning the air in commercial spaces may provide a big bang for the funding as to the number of people receiving clean filtered air throughout a week.

00:55:35 R-Mary Elizabeth: Are those video detection for red light enforcement?

00:56:12 Jared Zachary, H+Co (he/him): Reacted to "please increase the ..." with 👍

00:57:12 CSC_ Ector Olivares: Was AB 617 funding used for pothole repair?

00:58:29 R-Mary Elizabeth: These bike lane markers are required to be maintained for 10 years?

01:00:48 Deby Provost, R: I too am concerned that our \$ was used for repaving?!

01:08:44 CSC-Jeff Wingfield-Port: I've seen in person and looks great!

01:09:28 R CSC Ned Leiba: I believe the city establish bike lanes on Center, El Dorado, then my residential street Hunter, then California.

That is four major North South bike lanes all built within a short distance of each other, all at amount the same time. That reduced lanes for vehicle usage by 1 to 2 lanes for each street.

We have per person VMT for vehicles; do we have bike miles travel per person BMT as a comparison?

Do we have some statistics on use per day, week, through put. Were the projected BMT met?

Do we have some statistics of cost per VM for these improvements. Seems VMT would decrease while hopefully BMT would increase. Thanks

01:11:19 CSC-Jeff Wingfield-Port: E-bikes might increase traffic

01:11:44 R-Mary Elizabeth: even extra emissions from cars queuing?

01:12:28 Deby Provost, R: We came to 10% of this project yet still not sure what we paid for, sidewalks resurfacing?

01:16:25 R-Mary Elizabeth: [Stockton, CA Master Plan](#) link

01:16:40 R - Nate Knodt - Stockton: As with transit ridership. It will take time for people to know of these lanes and for usage to grow, I agree that California lanes have had very little usage to date. Also as with transit, it is extremely difficult for Auto- Centric Cities such as Stockton to allow a really busy street such as El Dorado, Center, or Pacific to have an auto lane converted. RTD has solid ridership on Pacific BRT Routes but City has no plans to convert an auto lane to a transit lane. There needs to be an aggressive outreach to public to publicize these new lane. California was "available" and the conversion could be seen and tried. I doubt that El Dorado and Center would have been converted by as a "new or first" bike lane project.

01:22:37 R - Nate Knodt - Stockton: Sadly Baker Street bike lanes have not seen much bicycle ridership to date.

01:29:12 R Margo Praus: Can we get an update from SUSD about how the electric lawn equipment is working for them?

01:29:55 R CSC Ned Leiba: With Cap and Trade now called Cap and Invest, proceeds being dedicated to High Speed Rail, it seems AB 617 and other projects will lose funding. Can you offer any overview of the funding status and prospects. Is that something that should be in our 9/30/2025 Annual Report.

01:30:08 R-Mary Elizabeth: Can we can have some data on the chargers that have been installed?

01:32:41 Rocio Calderon - AD: <https://www.youtube.com/watch?v=vNSQAP5YNVc>

01:34:01 R - Gloria E. Alonso Cruz (she/her): Congrats!

01:34:27 R- Jazmarie & Bobby: Reacted to "Congrats!" with 🥳

01:35:55 R Margo Praus: Replying to "Can we can have some..."

01:41:03 Stephanie Ng - Valley Air District: Reacted to "Congrats!" with 🎉

01:41:17 CSC-Jeff Wingfield-Port: Margo, if there is interest and t talk to this company we could make charging available. I don't want charger availability to be a limiting factor to a company sending ZE trucks.

01:49:44 R CSC Ned Leiba: Edith Verdin SJCOG,

In this long term transportation plan, is there any hope for the restoration of air service from Stockton to LA? I am in LA now, and I travel x 2 per month. Please tell me there is some hope.

What does the plan see for the High Speed Rail project.

01:56:00 R - Nate Knodt - Stockton: SJCOG, SJRRC, City Council, and Amtrak JPB due to have common elected officials serving on these various boards and in the Rail staffs at Cabral Station.
