16:06:43 From CSC R Ned Leiba to Everyone:

Draft plan looks good.

Under the Global Warming Solutions Act, we need costs per MT CO₂E emission reduced per year. That type of cost for CO₂E should be developed for other chemicals by emissions and exposure per MT. Then emissions and exposure should be measured, and compare to computed, projected numbers.

10 years is good.

The plan should prefer locations that would have a likely beneficial effect on childhood asthma. Thus near schools and in conjunction with the Office of Environmental Health Hazard Assessment (OEHHA) programs. It should be part of rational, cogent health studies. Must be appropriate air monitoring, e.g., street facing outside barrier, inside barrier, inside classrooms.

Report periodically on results: designed, projected, actual, by emission, exposure and health outcomes. Must have economic analysis, e.g., cost per MT reduction in emission, exposure, and cost per reduction in health metrics, e.g., ER visits, other measures of morbidity, mortality relating to asthma etc.

16:07:34 From AD - Stephanie Ng (she/her) to Everyone:

Thanks Ned, comments are noted

16:11:35 From Matt Holmes to Everyone:

I Would Agree the Port is a very eligible option to my mind

16:14:10 From R CSC Mary Elizabeth to Everyone:

pg 1 p.3 will not reduce emission by concentration exposures. In the same p. list drought resistance w/ preference for native species. Particulate matter resuspension issue discussion. The plan stated that there was outreach activities - I am not aware of any that has occurred so it would be best to say this is planned (pg 2)

16:15:45 From AD - Stephanie Ng (she/her) to Everyone:

Thanks Mary Elizabeth, I've noted your comments

16:16:42 From R CSC Mary Elizabeth to Everyone:

pg 4 routine maintenance was included not in Imperial county plan and concerned that if routine maintenance and rehabilitation projects broken off from the main program we may be left without an entity to complete.

16:25:41 From R CSC Mary Elizabeth to Everyone:

AD mentioned administration what is the percent you all will charge against the available funds.

16:28:58 From R CSC Mary Elizabeth to Everyone:

I did not see anything about health studies in the project plan will be come down the line and if not included will not be funded without a plan amendment.

16:29:17 From Jessica Olsen - Valley Air District to Everyone:

I see that Mary and I think we should include that in the plan

16:32:49 From Jessica Olsen - Valley Air District to Everyone:

Thanks all! I'm off to another meeting and really appreciate your thoughtfulness and feedback.

16:35:29 From CSC R Ned Leiba to Everyone:

Why no sequestration as in trees, would apply to some extent to VB?

16:42:26 From R CSC Mary Elizabeth to Everyone:

I think maintenance should be included.

16:44:28 From R CSC Mary Elizabeth to Everyone:

There is money for maintenance

16:45:20 From R CSC Mary Elizabeth to Everyone:

We have to have adequate funds set aside

16:46:38 From R CSC Mary Elizabeth to Everyone:

Also,

16:47:16 From R CSC Mary Elizabeth to Everyone:

I was thinking that TCC trees did not have any maintenance which was discussed.

16:49:24 From R CSC Mary Elizabeth to Everyone:

Three years is not enough to set up

16:54:42 From R-CSC, Regina Griffin to Everyone:

Cal Fire standards seems like a good guide

16:55:47 From R CSC Mary Elizabeth to Everyone:

Compliance: All trees shall comply with federal and state laws and regulations requiring inspection for plant disease, pests, and weeds. Inspection certificates required by law shall accompany each shipment of plants. Clearance from the local county agricultural commissioner, if required, shall be obtained before planting trees originating outside the county in which they are to be planted. Even though trees may conform to county, state, and federal laws, the buyer may impose additional requirements.

16:56:41 From R-CSC, Regina Griffin to Everyone:

yes long live Matt !

16:59:04 From Nate Knodt - CSC to Everyone:

I agree with a maintenance requirement included in RFP with general wording allowing for flexibility. I must leave at this time to attend a Community Dinner Event. Thank you.

16:59:46 From Douglas Vigil to Everyone:

im leaving now thank you take care everyone have good evening 🍷

17:00:20 From R-CSC, Regina Griffin to Everyone:

good night Doug

17:00:21 From AD - Stephanie Ng (she/her) to Everyone:

Thanks Nate and Doug, enjoy your evenings!

17:00:29 From R-CSC, Regina Griffin to Everyone:

Thank you

17:08:53 From Matt Holmes to Everyone:

There's something there Ned.

17:10:24 From Matt Holmes to Everyone:

I am confident that we can bring along a great deal of CSC support for analysis of the benefits of the VB strategy.

17:13:27 From R CSC Mary Elizabeth to Everyone:

That sounds reasonable

17:13:41 From R-CSC, Regina Griffin to Everyone:

I agree It is important to have the analyses

17:13:45 From CSC R Ned Leiba to Everyone:

I agree. Thank you.

17:18:35 From CSC R Ned Leiba to Everyone:

Thanks - I must leave for other pressing appointments.

17:23:54 From R-CSC, Regina Griffin to Everyone:

Project Strategy Plan

17:27:24 From R CSC Mary Elizabeth to Everyone:

I have to go to work. Thank you Go Green

17:27:47 From R-CSC, Regina Griffin to Everyone:

Mary have a good night

17:27:50 From Matt Holmes to Everyone:

Thanks Aaron.

17:30:57 From Clifton Maxwell-CSC-PUENTES to Everyone:

Have to go feed the pigs, bye everyone!

17:31:50 From R-CSC, Regina Griffin to Everyone:

Thanks Cliff

17:35:32 From R-CSC, Regina Griffin to Everyone:

Ready to go

17:36:31 From R-CSC, Regina Griffin to Everyone:

Okay good nite
