00:39:34 Matt Holmes: Thanks Brian

00:45:35 Brian Moore | CARB: Here is the Health Effects Institute research Ken just mentioned:
<https://www.healtheffects.org/air-pollution/traffic-related-air-pollution>

00:47:58 Lily Wu, OEHHA: @Ned: could you clarify the health benefits you're anticipating? exposure reduction is not tied specifically to a health outcome

00:50:43 Nate Knodt - CSC: I wish for human health study outcomes as Ned L. keeps advocating for. I must leave for Earth Day presentation at tonight's City Council Meeting. Thank you everyone.

00:52:18 Lily Wu, OEHHA: @ Ned: asthma is too specific to tie to the broad intervention of air pollution (PM2.5) exposure reduction as a reply to "Frequency of medical events relating to childhood asthma, especially in the population of students at Washington School and St. George School (All Saints)."

00:55:08 AD - Jessica Olsen (she/her): Stockton Community Air Monitoring:
