- 00:53:08 Douglas Vigil: I'm interest watching Kevin meeting
- 01:04:42 Skott Wall-CARB: I will engage our incentives group on the question about how prioritizing small local trucking operators impacts the need (or not) for a project plan and pass that information along to Jessica.
- 01:07:57 Eric Bissinger/CARB: In the state program, incentives are not released to non-compliant truck owners. Can the ab617 incentives deviate from that requirement?
- 01:10:08 Jeannine Tackett: The District's program aligns with the States and compliance with State regulation is a requirement. We are looking at 2010-2016 engine model year trucks for funding at this point since 2009 and older must be retired by the end of the year.
