

## Stockton AB 617 HD Trucks Subcommittee Meeting – Chat Transcript Sep.22 , 2022 4-5 p.m.

- 00:12:01 Jessica Olsen - Valley Air District:  
[https://community.valleyair.org/media/4339/92222\\_re-subcommittee-meeting-agenda.pdf](https://community.valleyair.org/media/4339/92222_re-subcommittee-meeting-agenda.pdf)
- 00:42:15 Jonathan Pruitt:It's actually not just an elementary school. They also host 7th and 8th graders!
- 00:45:37 Jonathan Pruitt:Absolute joke
- 00:52:38 Jonathan Pruitt:The one right next to Edison High School
- 00:52:45 Jonathan Pruitt:As the next location
- 00:58:27 Dr. Catherine Garoupa White, they/she, CVAQ: Gotta head out. Really appreciate the partnership from CARB enforcement and Little Manila Rising. ❤️ Thanks Cynthia for presenting and representing us!
- 00:59:15 Justin Shields - CARB - he/him/his: Hi Jonathan, I have taken note of the location and we can scout the area to see if we can deploy PEAQS there.
- 00:59:45 Jonathan Pruitt:There's a Trucking School right next to Edison High School
- 00:59:58 Justin Shields - CARB - he/him/his: If anyone has other locations feel free to email Eric or myself: [Justin.shields@arb.ca.gov](mailto:Justin.shields@arb.ca.gov)
- 01:01:28 Douglas Vigil: I need to go!!! thanks you
- 01:01:42 Kyle Goff - CARB - he/him/his: May be helpful to add from the incentives side of things that the Fresno truck study was actually a community identified project (the very first, actually!) funded with CAP incentives -- so doing something similar for Stockton (from our perspective here at CARB anyways) is definitely an option!
- 01:10:43 Jessica Olsen - Valley Air District: @Kyle a truck study is almost complete in Stockton :) we would love to use the funding in the CERP (\$500K in Stockton) to maybe help with the actual reroute effort in coordination with the City and County
- 01:11:28 Nick Peirce - SJVAPCD: Gotta hop off
- 01:15:14 Femi Olaluwoye, CARB: Just to throw this into the chat really quickly, there is a discussion upcoming where we will be talking about how we can assist small fleets in the transition to zero emission technologies. Please take a look if you have a chance:
