Residential Lawn and Garden Emission Reduction Program Plan

Air District: San Joaquin Valley Air Pollution Control District (District)

Community: Arvin/Lamont

Community Emissions Reduction Program Measure:

LG.1: Incentive Program for the Replacement of Residential Lawn and Garden Equipment

Project Plan Identifier: 2023-04-3SJV

Project Type: Equipment Replacement and Rebate

Project Plan Completion Date: April 12, 2023

CARB Action (Date): Approved; April 26, 2023

Project Description: This project plan will provide incentive funding for approved replacement of gas and diesel-powered lawn mowers with eligible new electric lawn mowers and incentivizes the purchase of new electric-powered lawn care equipment. The funding will provide for the replacement of up to 350 gas or diesel-powered units in Arvin/Lamont. Eligible participants are residents of the Arvin/Lamont community boundaries.

Project Benefits: This measure would provide an estimated emissions reduction of 0.01 tons of PM 2.5 and 0.01 tons of NOx in Arvin/Lamont by reducing the number of gas- or diesel- powered handheld lawn care equipment in Arvin/Lamont. The project plan would benefit community members within disadvantaged communities or low-income communities, which is a need determined by the community.
