

Community-Identified Project Approval Notice

Public Benefit New Alternative Fuel Vehicle Purchase Emission Reduction Program

Air District: San Joaquin Valley Air Pollution Control District (District)

Community: South Central Fresno, Shafter, and Arvin/Lamont

Community Emissions Reduction Program Measure:

- PF. 1: Provide incentives to replace older public fleet vehicles with new, clean vehicle technology (South Central Fresno and Shafter)
- 3.D: Public Fleet Vehicles (Arvin/Lamont)

Project Plan Identifier: 2022-23CIP-SJV

Project Type: Incentives for public agencies to purchase new, cleaner vehicles and equipment.

Project Plan Completion Date: April 5, 2023

CARB Action (Date): Approved; April 21, 2023

Project Description: The purpose of this program is to fund the purchase of new on-road electric, or plug-in hybrid vehicles and off-road all electric equipment (such as transport/utility carts, scooters, bicycles, etc.) for public agencies and community action agencies, to promote clean air alternative-fuel technologies and the use of low- or zero-emission vehicles in public fleets.

Project Benefits: This measure will reduce Oxides of Nitrogen (NOx) and Particulate Matter (PM) emissions from public fleet vehicles by providing incentives for public agencies to purchase and/or lease new on-road electric or plug-in hybrid vehicles with a Gross Vehicle Weight Rating (GVWR) of 14,000 pounds or less, and off-road all-electric equipment such transport/utility carts. Off-road equipment used in construction or agricultural operations are not eligible.
