South Central Fresno AB 617 Community

San Joaquin Valley Air Pollution Control District

# Enforcement Plan

## List of Permitted Facilities

The Valley Air District has some of the most stringent regulations in the country for limiting emissions from businesses and other stationary sources of air contaminants. There are numerous types of equipment as well as industrial and commercial processes that require a Permit to Operate with the District. The following is a current listing of all facilities located within the South Central Fresno Community which have active Permits to Operate with the District as of June 2025. A previous listing was provided in [Appendix F](#) of the South Central Fresno Community Emissions Reduction Program (CERP) and in the [2024 Annual Report](#).

## Enforcement Plan Facility Inspections

Facilities that have permits with the Valley Air District are inspected on a regular basis by District Compliance staff to ensure all permit requirements are being followed. New and modified equipment is also inspected before commencing operation. District inspection staff also observes stack emission testing (known as source testing) for certain types of equipment to ensure that proper testing procedures and protocols are followed by the third-party testing company. They also conduct inspections when unforeseen equipment breakdowns occur which may affect a facility's ability to comply with all permit requirements.

In addition to the numerous inspections already conducted by the District each year at permitted facilities throughout the valley, the District committed in the South Central Fresno CERP to increase the frequency of periodic compliance inspections to once every six months at facilities that have had an emissions related violation within the last three years. The following is a listing of all District inspection activities at permitted facilities within the South Central Fresno Community from July 2024 through June 2025. A previous listing of inspections can be found in [Appendix F](#) of the South Central Fresno CERP and in the [2024 Annual Report](#).

## Enforcement Plan Summary of Complaints

District inspectors respond to approximately 3,000 public air pollution complaints District-wide each year. Some complaints are related to permitted facilities, however a majority of complaints received by the District are for other sources of pollution such as illegal open burning, fireplace burning, dust generating activities, and miscellaneous odors. The District responds to all public complaints received, and makes every effort to respond as quickly as possible. Most complaints are investigated the same day they are reported. The following is a summary of all public air pollution complaints received and responded to within the South Central Fresno Community from July 2024 through June 2025. A previous report of complaints can be found in [Appendix F](#) of the South Central Fresno CERP and in the [2024 Annual Report](#).

7/1/2024	Pitman Family Farms		2249 S Cedar Ave, Pittman Farms	Odor Nuisance	Strong odor coming from facility, smells like rotten chicken	No Violation	Odor was confirmed but per Rule 4102 (Nuisance) Odors from agricultural operations in the growing of crops or raising fowl or animals are exempt.
7/2/2024			3301 E Tulare Ave	Odor Nuisance	Spray painting, fumes	Unable to Confirm	No odors or visible paint emissions were observed.
7/9/2024			537 E White Ave	Odor Nuisance	Trash getting thrown onto property. Piles of trash can be seen	Unable to Confirm	No odors were detected in the area.
7/12/2024			Near OK Produce	Odor Nuisance	There is a terrible smell from mixing some type of oils, and it smells toxic. It is near OK Produce and from some oil mixing facility. Don't have the exact address but its near East & Hamilton Area.	Unable to Confirm	No odors were observed in the area around the two plants.
7/31/2024			Freeway shoulder	Residential Open Burning	There are a few homeless folks who has been living on the side of the highway, next to my apartment and they may be using the Oleander tree growing around that area as a fuel source to cook their meals. I see them with the fire going a couple times and it looks like a fire hazard because of all the dry vegetation around. There was a fire that occurred in that area recently and I don't want that happening again as my apartment is right next to the freeway.	Unable to Confirm	Upon investigation, no signs of burning observed. Code enforcement notified of complaint.
7/31/2024			1557 N West Avenue	Residential Open Burning	Smoke from a burn in backyard occurred yesterday evening, July 30, 2024.	Unable to Confirm	Upon investigation, no signs of burning observed.
8/5/2024	PENNY-NEWMAN GRAIN COMPANY	C-2252	2691 S CEDAR AVE	Fugitive Dust	Dust/chemicals coming from trucks and silo	Unable to Confirm	No dust being generated during investigation. A full compliance inspection was performed at the facility and truck were observed coming and going to the facility. No fugitive dust was observed during the inspection.
8/8/2024	California High Speed Rail Authority		2495 S Golden State Blvd	Fugitive Dust	There is large amounts of loose dirt mounds and loose dirt creating dust storms. These dust storms are so bad that it is impacting the health of the workers here at Trillium. I've made numerous complaints w/the city of Fresno with no help. The entrance/exit that is being used on East to the job site needs to be closed off completely and the mounds need to be covered and the loose dirt should be watered each and everyday multiple times per day.	NOV Issued	NOV 5033424 issued for failure to maintain a track-out control device.
8/9/2024	California High Speed Rail Authority		2400-2466 S East Ave, Fresno, Ca 93706	Fugitive Dust	<p>I am writing to express my deep concern about the excessive dust pollution from ongoing construction for High Speed Rail. The dust not only disrupts our daily lives but also raises significant health concerns, especially given the proximity to a known Purity Oils Sales superfund site.</p> <p>The dust may contain harmful toxins from the Superfund site, potentially posing serious health risks to residents, including respiratory issues and long-term illnesses. Despite previous assurances, there seems to be inadequate control and mitigation measures in place. Construction traffic runs north and south on what used to be railroad ave.</p> <p>I urge the city to take immediate action to address this issue, including stricter enforcement of dust control regulations and regular monitoring to ensure that the dust is safe for our community. We need urgent intervention to protect our health and well-being.</p> <p>Thank you for your prompt attention to this matter.</p>	NOV Issued	NOV 5033424 issued for failure to maintain a track-out control device.

8/9/2024	California High Speed Rail Authority		East Ave And Golden State	Fugitive Dust	High Speed Rail is doing construction on what was Railroad Avenue to the east of Trillium Pumps. I park in the East Avenue parking lot at Trillium Pumps. Every day, there are dust clouds coming from the construction area. With the hot weather and the open dirt being stirred up by the trucks driving around, the earth is like flour and the dirt is in the air most of the day. It would be better if the ground was kept moistened by water trucks. This may take multiple times a day to keep under control.	NOV Issued	NOV 5033424 issued for failure to maintain a track-out control device.

# Enforcement Plan

## Summary of Violations Found

The District implements a robust enforcement program that includes regular inspections of facilities with District permits as well as other potential sources of air contaminants. In the South Central Fresno CERP, the District committed to further enhancing its enforcement efforts in a few areas of concern to the community. Over the last five years, District compliance staff have completed numerous hours of additional surveillance in the South Central Fresno Community for open burning violations, fireplace violations, and idling diesel truck violations, in addition to conducting more frequent inspections at facilities with recent emissions violations and dust generating sites.

When a violation of a District rule or other air pollution regulation is discovered during an inspection, complaint investigation, or through surveillance activities, the violation is documented through the issuance of a formal notice to the owner or operator, and depending on the nature of the violation, may be subject to substantial monetary penalties. The following is a summary of all violation notices issued from July 2024 to June 2025 for violations of District Rules or other State air pollution control regulations within the South Central Fresno Community. These include violations at permitted facilities as well as other non-permitted facilities and private residences. A previous list of violations can be found in [Appendix F](#) of the South Central Fresno CERP and in the [2024 Annual Report](#).
