

Public Workshop Community Emissions Reduction Program Stockton

The California Air Resources Board (CARB) invites the Stockton Community Steering Committee to meet with us to discuss CARB's role in the "Community Emissions Reduction Program" (CERP) for the Stockton community and share other input about the CERP. The public is also welcome. CARB staff will present their responsibilities for helping implement the CERP. You can ask questions and engage in discussions. This workshop and community engagement are critical components of CARB's review process and we want to hear your thoughts. CARB anticipates presenting the Stockton CERP to its Governing Board for consideration at the July 29, 2021 meeting.

June 21, 2021
5:00 –7:00 pm
