- 17:58:02 From Cesar CCEJN : The current fed gov is not protecting community or Air quality. Would these waivers be at risk to be removed?
- 17:59:17 From Brian Moore | CARB : Cesar, everything I super fluid right now. We don't know what is happening for sure. But when CARB staff working on the individual regs has updates, we will make sure to pass them on to this CSC.
- 18:00:40 From Cesar CCEJN : If there is anything the CSC can do to help protect regulations the mitigate emissions please let us know. CA should be a leader on climate issues 🙏
- 18:00:47 From Brian Moore | CARB : Reacted to "If there is anything..." with ❤️
- 18:01:14 From Brian Moore | CARB : We will for sure reach out!
- 18:01:34 From Madeline Rayon (H+Co) : Reacted to "If there is anything..." with ❤️

18:02:06 From Nancy Rios - AD : Reacted to "If there is anything..." with ♥

18:02:48 From Brian Moore | CARB : Here is the legal description of how CARB can have stronger regulations than the federal government. Part A says that states can't make their own rules, but part b says California can.

Section 209 of the Clean Air Act prohibits states from setting emissions standards on engines. Section 209(b) allows California to adopt emissions standards subject to US EPA authorization for vehicles. Section 209(e) allows California to adopt emissions standards for offroad engines subject to US EPA authorization.

18:03:23 From Spanish Interpreter, Tania, Linguistica : Cesar CCEJN
El actual gobierno federal no esta protegiendo a la comunidad ni la calidad del Aire. ¿Estarían estas exenciones en riesgo de ser eliminadas?

Brian Moore | CARB a Todos
Cesar, todo es super fluido ahora mismo. No sabemos lo que está pasando con seguridad. Pero cuando el personal de CARB que trabaja en los reglamentos individuales tenga actualizaciones, nos aseguraremos de transmitirlos a este CSC.

Cesar CCEJN a todos
Si hay algo que el CSC pueda hacer para ayudar a proteger las regulaciones que mitigan las emisiones, por favor háganoslo saber. CA debe ser un líder en temas climáticos 🙌

Brian Moore | CARB
Por supuesto que nos pondremos en contacto.

18:04:25 From Brian Moore | CARB : SORE = small off road engines

18:04:30 From Spanish Interpreter, Tania, Linguistica : Aquí está la descripción legal de cómo CARB puede tener regulaciones más fuertes que el gobierno federal. La parte A dice que los estados no pueden hacer sus propias normas, pero la parte b dice que California sí puede. La sección 209 de la Ley de Aire Limpio prohíbe a los estados establecer normas de emisiones en los motores. La sección 209(b) permite a California adoptar normas de emisiones sujetas a la autorización de la EPA de EE.UU. para los vehículos. La sección 209(e) permite a California adoptar normas de emisiones para motores todoterreno sujetas a la autorización de la EPA.

18:05:06 From Brian Moore | CARB : Here is the omnibus regulation on HD Trucks: Heavy-Duty Omnibus Regulation Fact Sheet | California Air Resources Board

18:06:16 From Spanish Interpreter, Tania, Linguistica : Brian Moore | CARB 9:04 PM
SORE = pequeños motores todoterreno

- 18:31:47 From Brian Moore | CARB : Here is CalGEM's webpage in this program: Understanding California's Oil and Gas Safety Zones: Senate Bill 1137
- 18:32:43 From Cesar CCEJN : A suggestion would be to have operators provide notifications by leaving door hangers or some door to door outreach. That way agencies can provide notifications but not use as much capacity to make sure everyone in the area is made aware.
- 18:36:35 From Spanish Interpreter, Tania, Linguistica : Brian Moore | CARB
SB 1137 - Desarrollo de Normas de Desempeño para Sistemas de Detección de Emisiones <https://ww2.arb.ca.gov/our-work/programs/sb-1137-health-protection-zone/senate-bill-1137-meetings-and-workshops>
Aquí está la página web de CalGEM en este programa: Entendiendo las Zonas de Seguridad de Petróleo y Gas de California: Proyecto de ley del Senado 1137
- Cesar CCEJN 9:32 PM
Una sugerencia sería que los operadores proporcionen notificaciones dejando colgantes en las puertas o algún tipo de divulgación puerta a puerta. De esta manera, las agencias pueden proporcionar notificaciones pero no utilizar tanta capacidad para asegurarse de que todo el mundo en la zona está informado.
