🌐
- 17:26:44 From Byanka Santoyo : Does that include ag burning for industry piece
- 17:28:14 From Spanish Interpreter, Dayana, Lingüística : Byanka Santoyo: ¿Incluye la quema agrícola para la industria?
- 17:56:01 From Gustavo Aguirre he/him. CRPE : there is not enough infrastructure to support electric trucks yet for long term trips. in my opinion with that timing is not ideal yet.
- 17:59:04 From Spanish Interpreter, Tania, Linguística : Gustavo Aguirre CRPE todavia no hay suficiente infraestructura para soportar camiones electricos para viajes de larga duracion. en mi opinion con eso el tiempo no es ideal todavia.
- 18:06:18 From Gustavo Aguirre he/him. CRPE : amazon have the \$\$ and most of their trucks operate outside of the Shafter AB-617 boundaries
- 18:07:30 From Spanish Interpreter, Dayana, Lingüística : Gustavo Aguirre CRPE: amazon tiene los \$\$ y la mayoría de sus camiones operan fuera de los límites de Shafter AB-617

18:10:35 From Gustavo Aguirre he/him. CRPE : if I recall correctly, county said each mile of sidewalks cost 3 million so 1M will not go far 😊

18:15:55 From Spanish Interpreter, Dayana, Lingüística : Gustavo Aguirre CRPE: Si no recuerdo mal, el condado dijo que cada milla de aceras costaba 3 millones así que 1M no llegará lejos 😊 .

18:17:37 From Gustavo Aguirre he/him. CRPE : an early report showed that one company got over 800K just one co. not sure if that company is mostly located in the 617 boundaries!

18:18:26 From CSC_Michele McManus : I am still interested in allocating funds to low nut harvesters, I think they make a big difference. Remember the harvesters may harvest other growers field in the area.

18:18:53 From Spanish Interpreter, Dayana, Lingüística : Gustavo Aguirre: ¡un primer informe mostró que una empresa obtuvo más de 800.000 sólo una, no estoy seguro de si esa empresa se encuentra en su mayoría en los límites de la 617!

18:20:11 From Spanish Interpreter, Dayana, Lingüística : CSC_Michelle McManus: Sigo interesado en asignar fondos a los cosechadores de frutos de cáscara bajos, creo que marcan una gran diferencia. Recuerde que los cosechadores pueden cosechar el campo de otros cultivadores de la zona.

18:20:35 From Steve Esselman - City of Shafter : Perhaps this round of outreach prioritize areas adjacent to the Strip and Colonia areas?

18:21:27 From Spanish Interpreter, Dayana, Lingüística : Steve Esselman: ¿Quizá en esta ronda de divulgación se dé prioridad a las zonas adyacentes al Strip y la Colonia?

18:21:31 From Byanka Santoyo : I think we should be mindful where we want the hut harvester to be spend on because as Gustavo mentioned just one company itself got we need to make sure it's going to help in the community not in the outskirts of Shafter

18:41:40 From Spanish Interpreter, Tania, Linguistica : Byanka Santoyo
Creo que debemos ser conscientes de donde queremos que la cosechadora de choza para ser gastado en porque como Gustavo mencionó sólo una empresa en sí tiene que asegurarse de que va a ayudar en la comunidad no en las afueras de Shafter
