

Stockton AB 617 CSC Meeting- Chat Transcript June 4, 2025 5:00-7:00p.m

00:20:39 R - Mary Elizabeth: What would be necessary to reallocate funds for residents ebikes?

00:33:11 R - Mary Elizabeth: When the AD goes out to an event where they will have a filter to see and signup - please post those events on nextdoor.

00:34:41 R - Mary Elizabeth: Why did California Traction back out of the switcher locomotive incentive?

00:37:38 Kyle Goff - CARB - he/him/his: Could be helpful for me to chime in about the locomotive incentives -- historically speaking the time period right before impending in-use regulations kick in is where classic heavy-duty vehicle incentives really shine. I think Sarah's spot-on with her thinking that locomotive reg amendments are likely to increase interest there

00:38:47 R - Mary Elizabeth: Kyle, What is the timing on those reg amendments?

00:40:08 Kyle Goff - CARB - he/him/his: Not sure off the top of my head, but let me see what I can sleuth out right now...!

00:46:00 R - Nate Knodt - Stockton: Californnia

00:49:04 R - Nate Knodt - Stockton: California Traction Company is thew official RR of the Port of Stockton Operates trains from Stockton to Lodi with tracks in place, butn not currently in use from Lodi to Sacramento via Sheldon,

00:58:47 Kyle Goff - CARB - he/him/his: Okay, here we go -- this is not good news but I did find the information on what's happening. The amendment getting discussed at our June 26-27 Board hearing is the official repealing of the regulation after having retracted the request for a waiver from US EPA.

Given how sensitive things are with the regulations/waiver retractions, I don't think I can say much beyond that, BUT I can definitely link to the Public Hearing Notice that has all the details (plus -- links to giving public comments, which are open to submit up until June 16th!):

01:25:48 Gloria E. Alonso Cruz - CSC: Side note, can we get an outline of "liquidation deadlines" to inform the urgency in which the CSC should be acting this last year. This is so important and has been brought up several times now

01:26:30 R - Regina Griffin Reynolds: If we reallocate we won't lose it

01:26:59 R - Nate Knodt - Stockton: I should say Wabtec (General Electric) is marketing,

01:46:22 R - Regina Griffin Reynolds: ???
