00:50:36 R - Provost, Deby, Reclamation District 828: I totally agree! Lets get that mobile out there!!

01:00:01 Kyle Goff - CARB - he/him/his: Oh, don't want to take up more time talking, but wanted to note here in chat, at least: I'll filter word about this (not specifically my answer to Doug's question, I mean the broader issue of emissions at DTE) up to my management as well, take stock of what sorts of resources or help we can give on this; it might make sense to bring in some of our relevant enforcement or monitoring people, for example.

Just want to get us at CARB ready to help, basically!

01:01:02 CSC Alt - Cynthia Pinto-Cabrera: That would be great, enforcement ditions is leading on the stationary source review for the valley
