- 18:10:41 From Christine Viterelli, City of Arvin : For the public fleet program the issue is that the amount is limited to 20k. I have extensively looked for EVs and plug in

hybrids that meet the criteria of the program. All of the vehicles are significantly higher in cost. It doesn't appear that even used vehicles would meet the criteria within a 20k budget. While we need at least one more (and preferably 2 more vehicles), we are facing a budget crisis. If you have some creative suggestions , please reach out to me at cviterelli@arvin.org

18:18:00 From CSC-R-Lucia Alcala : I agree with Gustavo

18:18:28 From Spanish Interpreter, Tania, Linguistica : Christine Viterelli, Ayuntamiento de Arvin

En cuanto al programa de flota pública, el problema es que el presupuesto está limitado a 20 000 dólares. He buscado exhaustivamente vehículos eléctricos e híbridos enchufables que cumplan los criterios del programa. Todos los vehículos tienen un coste significativamente más elevado. No parece que ni siquiera los vehículos de segunda mano cumplan los criterios dentro de un presupuesto de 20 000 dólares. Aunque necesitamos al menos uno más (y preferiblemente dos vehículos más), nos enfrentamos a una crisis presupuestaria. Si tiene alguna sugerencia creativa, póngase en contacto conmigo en cviterelli@arvin.org

18:26:14 From Michelle Byars - CARB : CARB staff go to the Board tomorrow, on May 28th with an item that could be of interest because the AB 617 Program receives related funds: "26-3-3: Public Hearing to Consider Proposed Amendments to the Regulation for the California Cap on Greenhouse Gas Emissions and Market-Based Compliance Mechanisms" For more information, see the May 28th Board meeting here: <https://ww2.arb.ca.gov/board-meeting-dates>
