

Expedited Facility Risk Assessment & Risk Reduction under District Implementation of the Air Toxics Hot Spots Information & Assessment Act

As part of the ongoing implementation of Assembly Bill (AB) 617, the District continues to engage with community steering committees and stakeholders with respect to ongoing implementation of Air Toxics Hot Spot health risk reassessments of facilities located within AB 617 communities. This CERP strategy expedited the review of stationary sources of pollution in the community that are currently being reassessed under the Air Toxics "Hot Spots" Information and Assessment Act (AB 2588) which requires facilities that emit toxic air contaminants to report the types and quantities of toxic substances their facilities routinely release into the air. While all facilities under permit with the District are already undergoing this review process, the District will expedite its review of facilities within the AB 617 Community.

AB 2588 requires the District to compile an inventory of toxic emissions from Valley facilities, prioritize facilities for health risk assessment, evaluate public health risks for facilities ranked as high priority, and notify individuals who may be impacted by any significant health risks. Although the Hot Spots program is primarily a public notification program, the public awareness achieved through the Hot Spots program has led many Valley businesses to voluntarily reduce their toxic emissions to ease community concerns. The goals of the District Air Toxics "Hot Spots" program are:

- To identify Valley facilities that release toxic air contaminants as a result of their day to day operations
- To collect and quantify emission data from equipment located at permitted facilities
- To identify facilities causing localized health impacts on nearby residents,
- To determine facility-wide health risks resulting from the emission of toxic air contaminants
- To notify the public of their exposure to air toxics from facilities that exceed public notification thresholds in their vicinity, and
- To require facilities to reduce the impact of total facility emissions below the Risk Reduction threshold

As required by AB 2588, the District already collects and compiles toxic emissions data for industrial and commercial facilities through emissions inventory plans and reports. After the approval of the updated facility's report, which is required if there has been a significant increase in emissions since the facility's previous report submittal, the new data from the reports are entered into the California Emission Inventory Data and Reporting System (CEIDARS). The District then prioritizes these facilities using complex computerized database and modeling programs. As part of this process, very conservative assumptions are utilized, with many safety factors built in to determine the worst-case health risk to possible receptors. The purpose of those safety factors is to ensure that the most sensitive receptors (children, elderly, pregnant women and people with weakened immune systems) are protected. The District prioritizes and ranks the health risk posed by the facility in accordance with Table 1 below.

Table 1: Status Summary

Status	Definition
Exempt	<ul style="list-style-type: none"> Exempt pursuant to AB 2588 applicability criteria
Low Priority	<ul style="list-style-type: none"> Prioritization ≤ 1 Facility Exempt from further AB 2588 requirements
Low Risk	<ul style="list-style-type: none"> Health Risk Assessment (HRA) cancer risk < 1 in a million, and HRA total hazard index of < 0.1 HRA reviewed by OEHHA and approved by District Facility Exempt from further AB 2588 requirements
Intermediate Priority	<ul style="list-style-type: none"> Priority: $1 < \text{Prioritization} \leq 10$ Facility required to be evaluated on a quadrennial basis (every 4 years) via Update Summary
Intermediate Risk	<ul style="list-style-type: none"> $1 \leq \text{HRA cancer risk} < 10$ in a million, or $0.1 \leq \text{HRA total hazard index} \leq 1.0$ HRA reviewed by OEHHA and approved by District Facility required to be evaluated on a quadrennial basis (every 4 years) via Update Summary
High Priority	<ul style="list-style-type: none"> Prioritization > 10 Facilities required to prepare an HRA and status is categorized based on risk results
Public Notification Required	<ul style="list-style-type: none"> HRA cancer risk ≥ 10 in a million cancer, or HRA total hazard index of ≥ 1.0 Public Notice Required HRA Reviewed by OEHHA and approved by District
Risk Reduction	<ul style="list-style-type: none"> HRA cancer risk ≥ 100 in a million cancer, or HRA total hazard index of ≥ 5.0 Public Notice and Risk Reduction Audit Plan HRA Reviewed

In expediting the evaluation of facilities under the District’s Air Toxics “Hot Spots” program, the District has finalized 352 facility reassessments located in the South Central Fresno community. The remaining facility reassessments consist of one facility which is in the process of performing a Health Risk Assessment and currently being evaluated under the District’s Air Toxics “Hot Spots” program. Table 2 below identifies the number of facility reassessments finalized through a prioritization analysis or an applicability exemption determination. Any facilities categorized as a high priority are required to perform an HRA that is reviewed by the Office of Environmental Health Hazard Assessment (OEHHA) and approved by the District. Table 3 below identifies the number of facility reassessments finalized through an HRA process.

Table 2: Summary of Facility Prioritizations

Prioritization Category	Number of Facilities
Exempt	183
Low Priority	107
Intermediate Priority	51
Total	341

Table 3: Summary of Finalized Facility Health Risk Assessments

Risk Category	Number of Facilities
Low Risk	4
Intermediate Risk	7
Public Notice Required	0
Total	11

A full summary of the District’s reassessment efforts for all facilities located in the South Central Fresno community can be found in Table 4 below:

Table 4: Reassessment Summary

Facility ID	Facility Name	Facility Description	Status	Assessment Completed
C-7389	1060 Fulton Mall LLC	Department Store	Low Priority	8/4/2020
C-3170	21st Dist. Agricultural Assoc.	Operation of Agricultural Fairs	Exempt	8/13/2019
